## General Information

BRANDT SMART Mn PLUS is specifically formulated for foliar delivery of manganese.

## Rate Recommendations

**Field, Row, Vegetable and Vine Crops:** Apply 1 quart per acre (2.5 liters per hectare) per application throughout the growing season. More frequent applications at 1 pint per acre (1 liter per hectare) may be needed to correct deficiencies once they occur.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and general health. For best results, follow soil/tissue test recommendation.

## Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.
