

# BRANDT AdjuLock® Prime

Volatility & Drift Reduction Agent/Water Conditioner/Surfactant

## Principal Functioning Agents:

Tripotassium citrate monohydrate, Alkyl Polyglucoside, poly(1-carbamoylethylene) . . . . .	20.2%
Potassium Hydroxide / Ethanoic Acid . . . . .	37.0%
Constituents ineffective as spray adjuvant . . . . .	42.8%
Total	100.0%

## KEEP OUT OF REACH OF CHILDREN WARNING

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: May be harmful if swallowed. Causes serious eye irritation. Causes skin irritation. Avoid inhalation, contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Wear chemical resistant gloves, eye protection, long sleeved shirt, long pants, and shoes when mixing or applying BRANDT ADJULOCK PRIME.

#### FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**IF SWALLOWED:** Call poison control center or a physician. **IF ON SKIN:** Wash with plenty of water and soap. **IF IN EYES:** Rinse cautiously with water for 20 minutes. Remove contact lenses if present and easy to do. Continue rinsing. If eye irritation persists: seek medical attention.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Do not store below 39 °F. Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

### GENERAL INFORMATION

BRANDT ADJULOCK PRIME is a volatility and drift reduction adjuvant which is designed for use in dicamba tolerant cropping systems. The product should be used along with approved nozzle and pressure combinations sufficient to generate an Ultra-Course droplet spectrum and suitable spray pattern.

BRANDT ADJULOCK PRIME uses a specially balanced buffering and volatility control system to reduce the volatility of dicamba and dicamba containing tank mixes.

BRANDT ADJULOCK PRIME provides ammonium free water conditioning and wetting which meets the label requirements for mixing with approved dicamba products to be applied on dicamba tolerant crops.

### DIRECTIONS FOR USE

Prior to use, read all the directions on this label and on the label of all pesticides, fertilizers, and any other tank mix additives. Do not use unless a nonionic surfactant (NIS), water conditioner, drift reduction technology (DRT) and deposition agent are allowed or not excluded on the label. When using along with dicamba in dicamba tolerant crops review the website associated with the relevant dicamba containing product for any additional tank mix instructions.

**COMPATIBILITY:** BRANDT ADJULOCK PRIME is compatible with most water-soluble, emulsifiable concentrate, suspension concentrate, water dispersible granule, and wettable powder pesticides when applied by aerial or ground equipment. However, if the desired combination or order of addition has not been previously used, a compatibility test is recommended. Refer to the individual websites for Engenia®, FeXapan™, and Xtendimax® for approved tank mix partners.

**MIXING:** To a clean spray tank add sufficient clean water to reach at least ½ full. Be sure to agitate the tank during mixing and application. With agitation, add BRANDT ADJULOCK PRIME to the spray tank prior to adding the pesticide(s) and other adjuvants. Finish with remaining water and maintain agitation until thoroughly mixed. Be sure to allow sufficient time for mixing prior to application. When using a tank mix for the first time, prepare a jar test to assess the mixture for compatibility.

**RATES:** Use BRANDT ADJULOCK PRIME at 4 quarts per 100 gal spray mixture or 1.0% v/v.

**WARRANTY:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
