

# Brandt Manni-Plex® Fe

## Foliar Turf Micronutrient

### Guaranteed Analysis

5-0-0

|                          |      |
|--------------------------|------|
| Total Nitrogen (N) ..... | 5.0% |
| 3.0% Urea nitrogen       |      |
| 2.0% Nitrate nitrogen    |      |
| Iron (Fe) .....          | 5.0% |
| 5.0% Water soluble iron  |      |

Derived from urea and iron nitrate.

### General Information

Manni-Plex products are specifically formulated for foliar delivery of micronutrients for the prevention and correction of micronutrient deficiencies.

### Rate Recommendations

**Greens & Tees:** 2-4 fl. oz. per 1,000 sq. ft.

**Fairways & Sports Turf:** 2.5 - 5.5 qts. per acre

**Overseeding:** 2 fl. oz. per 1,000 sq. ft. after germination

**Sod Installation:** 2 fl. oz. per 1,000 sq. ft. at installation

### General Instructions

Use a minimum of 1 gallon water per 1,000 square feet with ground spray equipment. For best results apply as a foliar spray early in the morning or late in the evening. BRANDT MANNI-PLEX Fe can be applied via fertigation systems. Do not apply phosphate based fertilizers or high alkaline fertilizer solutions such as potassium carbonate during the same irrigation cycle.

The use of an adjuvant may be desired to improve the properties of spray solution. Performing trials with adjuvants may be useful in determining the best inclusion rates for optimal performance.

*Distributed By:*  
Agricultural Materials Co. Ltd.

Fax No. +974 44680168

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

### Mixing Instructions

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, fertilizers and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of BRANDT MANNI-PLEX Fe and agitate until thoroughly mixed. Fill tank with remainder of water.

Caution: Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing BRANDT MANNI-PLEX Fe with phosphate solutions.

### CAUTION: KEEP OUT OF REACH OF CHILDREN

**Warranty:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
