

BRANDT® 20-K

High Efficiency Foliar Potassium

BRANDT 20-K is a versatile, high potassium foliar fertilizer that corrects and prevents deficiencies quickly and efficiently. It is unique to other forms of potassium because of the organic-based nutrient carrier: acetate. The product may be used on greens or fairways to maintain turf health and vigor.

Key Benefits of BRANDT 20-K

- Potassium acetate is a natural organic acid and plant metabolite that plays an important role in plant health
- Recognized by the plant as a natural source of potassium, which is more readily available and rapidly taken up by plants
- Corrects and treats potassium deficiencies efficiently
- Excellent compatibility with other fertilizers
- Low salt index

Guaranteed Analysis

Total Nitrogen (N)	2.0%
2.0% Urea Nitrogen	
Soluble Potash (K ₂ O)	20.0%

Derived from urea and potassium acetate.

Application and Use

Greens and Tees: Apply 3-5 fl oz per 1,000 sq ft every 7-14 days or as needed to maintain healthy turf. Deficiencies may be corrected by doubling the normal maintenance rate per application.

Fairways & Sports Turf: Apply 4-7 fl oz per 1,000 sq ft every 7-14 days or as needed to maintain healthy turf.

Application Rate		Soluble Potash	
fl oz/1000 sq ft	qt/acre	lb/1000 sq ft	lb/acre
3	4.0	0.05	2.12
4	5.4	0.06	2.82
5	6.8	0.08	3.53
6	8.2	0.10	4.23
7	9.5	0.11	4.94
