

# Summer Success Program

April - October Nutritional Program for All Turf Grasses

The correct combination of nutrients produces outstanding greens and tees. It also helps turf withstand summer heat, drought and traffic. BRANDT's MANNI-PLEX® foliar nutrients build stronger root systems, stronger shoots and healthier turf.

| Application Timing | Products   | Application Rates |
|--------------------|--|-------------------|
| Week 1             | MANNI-PLEX® TOTAL TURF<br>MANNI-PLEX® MG<br>BRANDT® CONVERGE CRN | 3 oz / 1000 sq ft |
| Week 2             | FOLI-CAL®<br>MANNI-PLEX® EAGLE<br>BRANDT IN-CYTE                 | 3 oz / 1000 sq ft |
| Week 3             | FOLI-CAL®<br>MANNI-PLEX® ROOT BUILDER<br>BRANDT CONVERGE CRN     | 3 oz / 1000 sq ft |
| Week 4             | FOLI-CAL®<br>MANNI-PLEX® MN<br>MANNI-PLEX® ULTRA TURF            | 3 oz / 1000 sq ft |
| Every 6th Spray    | BRANDT SEAWEED MAX   | 3 oz / 1000       |

\* For Champion Ultra Dwarf Grass replace BRANDT CONVERGE CRN with BRANDT 30 K at 3 oz. / 1000

## Guaranteed Analysis

|                          |  |
|--------------------------|--|
| MANNI-PLEX® TOTAL TURF   | 4-0-0 plus 1.2% Mg, 2.8% Fe, .5% Mn, .6% Zn  |
| MANNI-PLEX® MG           | 5-0-0 plus 4% Mg   |
| BRANDT CONVERGE CRN      | 30-0-0 with 70% controlled release nitrogen  |
| FOLI-CAL®                | 10% Ca   |
| MANNI-PLEX® EAGLE        | 7-0-14 plus .25% Mg, .5% Fe, .25% Mn   |
| BRANDT IN-CYTE           | 3-12-0 enriched with seaweed extract, humic acid and a wetting agent                         |
| MANNI-PLEX® ROOT BUILDER | 3-0-0 plus .5% Mg, .2% B, .05% Cu, .9% Mn, 4.7% Zn   |
| MANNI-PLEX® MN           | 7-0-0 plus 5% Mn   |
| MANNI-PLEX® ULTRA TURF   | 4-0-2 plus 2% soluble potash, .5% Mg, .25% B, .5% Cu, 2% Fe, .5% Mn, .25% Mo                 |
| BRANDT SEAWEED MAX       | 25% Seaweed Extract derived from Ascophyllum Nosodium, 1% Humic Acid derived from Leonardite |

# Summer Success Program

Manni-Plex® Technology and BRANDT In-Cyte

### About Manni-Plex® Technology

MANNI-PLEX high performance foliar nutrients are a proprietary blend of macro and micronutrients, with a nutrient carrier added. Using MANNI-PLEX is one of the fastest and most effective ways to supply nutrition to plants and turf. It helps build strong root systems and healthy, vigorous plants and turf. MANNI-PLEX can also be re-wet after it dries, which will reactivate the formulation and extend the foliar feeding period. It is ready-to-use and compatible with most fungicides, insecticides and PGR's. Ideal for foliar application and may also be used in fertigation or as a soil drench.

### About BRANDT In-Cyte

Derived from ammonium polyphosphate, BRANDT IN-CYTE is a 12% liquid phosphate with humic acid, seaweed extract and wetting agents added. It stimulates root and stem responses and enhances the rooting process.
