

BRANDT Manni-Plex® for Ornamentals

Build Strong, Healthy and Beautiful Landscapes

Applying the right combination of nutrients produces outstanding greens, tees and ornamentals. BRANDT MANNI-PLEX foliar nutrients were designed to deliver nutrition quickly and efficiently. Their small molecular size and weight help get more nutrition into the plant for better results.

Key Benefits of BRANDT MANNI-PLEX for Ornamentals

Efficiency

- Nutrients are immediately available to the plant
- Proprietary formulation coats leaves and sticks to the surface, making nutrients available longer

Effectiveness

- Builds strong, healthy and vibrant plants and turf
- Enhances root mass and growth
- Helps turf and plants better withstand stress
- Delivers consistent results

Easy to Use

- Ready-to-use liquid formulation
- Compatible with most fungicides, insecticides and PGR's
- May applied using ground equipment, through fertigation or as a soil drench

Small particle size and low molecular weight allow nutrients to move to plant growth points quickly.

Guaranteed Analysis

Total Nitrogen (N)	5.00%
2.70% Nitrate nitrogen	
2.30% Urea nitrogen	
Boron (B)	0.25%
0.25% Water soluble calcium	
Iron (Fe)	1.00%
1.00% Water soluble calcium	
Manganese (Mn)	2.50%
2.50% Water soluble manganese	
Zinc (Zn).....	2.00%
2.00% Water soluble zinc	

Derived from urea, iron nitrate, manganese nitrate, zinc nitrate and sodium borate. F76

Application and Use

MANNI-PLEX® should be applied to actively growing plants and turf throughout the year. For best results apply early morning or late evening.

For more information, see BRANDT's Summer/Winter Success Spray programs and always read full labels before use.
