BRANDT GlucoPro®
Unlock Plant Glucose and Yield Potential

BRANDT GlucoPro is a new plant growth regulator and the first technology of its kind in agriculture. This ground-breaking technology unlocks and releases glucose that is bound to the Lectins. Applying BRANDT GlucoPro at planting and in early growth stages can improve quality, shelf life and brix. BRANDT GlucoPro will boost plant energy, productivity and stimulate germination.

**Guaranteed Analysis**

**ACTIVE INGREDIENTS:**
Methyl-alpha-D-mannopyranoside (CAS#617-04-9) ........ 12.15%
OTHER INGREDIENTS ........................................... 87.85%
TOTAL .......................................................... 100.00%

Contains 1.09 lbs of alpha methylmannoside per gallon.

**30% yield increase - 92.3 lb/ac**

BRANDT GLUCOPRO increased sweet potato yield and number of #1s. Treated sweet potatoes produced an additional 92.3 bu/ ac and had a 30% yield advantage over the untreated check. Treated sweet potatoes also had a higher number of #1s.

**Field Trial**
