

BRANDT T.A.C.

Copper Algaecide and Bactericide

BRANDT T.A.C. is a proprietary, high-performance algaecide and bactericide. Designed for aquatic management, BRANDT T.A.C. is ideal for algae control in lakes, ponds and reservoirs.

BRANDT TAC Advantages

- 100% Free Copper = quick knock-down and control Results in hours, not days.
- Unique formulation allows more free copper ions to suppress bacterial odors and noxious gases in ponds containing organic matter or algae/bacteria
- Unlike chelated products, T.A.C. requires no dilution. Cuts application labor in half.
- BRANDT T.A.C. has a vertical dispersion rate of 20 feet per hour and a horizontal dispersion rate of 25 feet per hour in still waters. Insures rapid dispersion of product for quick knock down.
- BRANDT T.A.C. is effective at dilution rates of 1/2 to 1/3 of chelated products. (less copper in your pond)
- Ready to use, EPA registered

Before BRANDT T.A.C.

Research has shown that "free" copper is what is most effective in killing algae. BRANDT T.A.C. is a unique, non-chelated formulation that is proven to deliver more free copper particles than conventional chelated copper-algaecides. In these formulations, the copper is chelated or "bound" with other chemicals and chelation is required to keep the copper stable.

Active Ingredient

Copper Sulfate Pentahydrate**	20.0%
Inert Ingredients	80.0%
Total	100.0%

** Metallic copper equivalent = 5.0% CAS# 7758-99-8
EPA Reg. No.65109-1-48813
Non-Flammable. Do Not Freeze. 9.9 lbs. per gallon. 1.188 Kg/L

ALGAE CONDITIONS			VERY LIGHT	LIGHT	MEDIUM	HEAVY
