

# BRANDT® Uptake® 12 Liquid Humic Acid

BRANDT UPTAKE 12 is an alkaline 12% humic acid liquid that supplies organic matter in a convenient, ready-to-use form. This product may be used on warm and cool weather grasses.

BRANDT UPTAKE 12 can be applied as a foliar, or in fertigation. It can be used to increase micronutrient uptake and is readily dispersed in most fertilizer or micronutrient products.

## BRANDT UPTAKE 12 Advantages

- Increase nutrient uptake
- Decrease toxins
- Increase water retention
- Improve microbial growth
- Better overall soil structure - more space for root growth and bacterial activity

This product may only be sold in states where registered or where registration is not required. For information regarding product availability in your area, please contact Brandt Consolidated, Inc.

## Guaranteed Analysis

0-0-3

Soluble Potash (K<sub>2</sub>O)..... 3.0%

Derived from potassium hydroxide.

## ALSO CONTAINS NONPLANT FOOD INGREDIENT:

12% Humic Acid derived from Leonardite  
Humic acid analyzed by acid precipitation method.

## Application and Use

This product can be applied any time during the crop cycle, from planting to harvest.

### Turf Grasses (for professional use only):

*Warm weather grass:* Apply 4-6 fl oz per 1,000 sq ft per month during the growing season. Total minimum seasonal rates of 20 quarts per acre should be applied for highly stressed areas.

*Cool weather grass:* Apply 2-4 fl oz per 1,000 sq ft per month during the growing season. Total minimum seasonal rates of 20 quarts per acre should be applied for highly stressed areas.

**Foliar Application:** Apply 8-64 fl oz per 10-100 gallons of water as needed.

**Fertigation:** Apply through irrigation systems at a rate of 1-2 gallons per acre per treatment. Repeat as needed.

**Deep Root Injection:** Apply 2-4 quarts per 100 gallons of injection solution.
