

BRANDT® Products Approved for Use with Dicamba and 2, 4-D Herbicides

As today's tank mix combinations become more challenging, the need for products that can perform in a wide range of tank mix environments is increasing. Thanks to a world-class team of chemists and formulators, BRANDT was the first manufacturer to get its nutrition products approved for use with dicamba and 2,4-D herbicides and has more nutrition products approved for use than any other manufacturer. BRANDT also has a strong portfolio of adjuvants approved, including two Drift Reduction Agents.
