## Ready to Use, Packaged Nutrition Kits for Greens

- Winter Success
- Summer Success
- Nematode Management

BRANDT pre-packaged kits offer a complete greens nutrition for each season. They contain a carefully selected mix of BRANDT nutritionals that help maintain turf strength and vigor during tough summer and winter conditions.

# Fertilizing Greens Has Never Been Easier

## BRANDT® Manni-Plex® Foliar Nutrients

BRANDT has been an innovator in foliar nutrition for over 65 years. The company's flagship line of foliar nutrients, BRANDT MANNI-PLEX, is the pillar of BRANDT greens nutrition kits. The proprietary chemistry maximizes nutrient uptake, mobility and efficacy. It is an excellent tool for correcting nutrient deficiencies and maintaining turf vigor throughout the seasons.

## BRANDT Winter Success Kit: November-March Foliar Nutrition

	BRANDT SEAWEED MAX	3 fl oz / 1,000 sq ft	2
	BRANDT MKS <i>0-0-4, 2.1% Mg, 3.2% S</i>	1 case/month	3

# BRANDT Nematode Kit: March-October Nematode Control

## BRANDT Nematode Kit - For Monthly Application

**1 kit controls nematodes for 8 months**

Application Timing	Product	Application Rate	Cases
March - November	NEO-TEC® S.O. <i>70% sesame oil, 30% other ingredients, lecithin and water</i>	3 fl oz / 1,000 sq ft once a month	5
May - June	BRANDT PLANT START 8-27-2	3 fl oz / 1,000 sq ft once a month	2
July - October	BRANDT MANNI-PLEX TOTAL TURF <i>4-0-2, 0.5% Mg, 0.25% B, 0.5% Cu, 2% Fe, 0.5% Mn, 0.25% Mo</i>	3 fl oz / 1,000 sq ft once a month	4
	BRANDT SEAWEED MAX <i>25% Seaweed Extract derived from Ascophyllum nodosum</i>	3 fl oz / 1,000 sq ft once a month	4

Products may be applied every other week instead of monthly, just split application rate in half. One turn of irrigation head is necessary to remove NEO-TEC S.O. off blades of grass. If nematodes are present when you are starting the program, apply 6 fl oz / 1,000 sq ft of NEO-TEC S.O. for the first two months, then apply at 3 fl oz / 1,000 sq ft once a month for the remainder of the season. Do not use NEO-TEC S.O. with surfactants and watch the amount of water (rain, irrigation, spray volume). Too much water will void the NEO-TEC S.O. application.

### Neo-Tec S.O. Liquid Nematicide

NEO-TEC S.O. is a proprietary liquid nematicide derived from sesame plant extract. It is also available in granular form: NEO-TEC G.S.O.

- Controls a wide range of nematodes including lance, sting, root knot, root-lesion, stylet, dagger and cyst nematodes.
- Quick and effective knock down
