

# BRANDT Lawn Care Success Kit

BRANDT Lawn Care Success Kits were developed exclusively for residential and commercial lawn professionals. Each kit contains a six month supply of proprietary BRANDT nutrient products developed to help establish and maintain healthy, vibrant grasses, especially during tough summer months.

The cornerstone of each kit is BRANDT® Manni-Plex® foliar nutrients. The proprietary technology maximizes nutrient absorption and efficiency. It is an excellent tool to prevent and correct turf nutrient deficiencies quickly and easily in-season, and helps turf vigor during periods of environmental stress.

## 8 Month Phosphorus Program Application Rates

**Treats 5 acres (217,800 sq ft) for 8 months**

*Program includes humic acid, seaweed and a wetting agent while feeding both the plant and the soil.*
