

## Manni-Plex<sup>®</sup> Traffic

# Build Stronger, Healthier Turf

Applying the right combination of nutrients produces outstanding greens and tees. MANNI-PLEX foliar nutrients were designed to deliver nutrition quickly and efficiently. Their small molecular size and weight helps get more nutrition into turf growth points for better results.

### Key Benefits of MANNI-PLEX TRAFFIC

#### Efficiency

- Quickly supplies readily available K to turf
- Proprietary formulation coats leaves and sticks to the surface, making nutrients available longer

#### Effectiveness

- Builds strong, healthy and vibrant turf
- Enhances root mass and growth
- Helps turf better withstand stress
- Delivers consistent results

#### Easy to Use

- Ready-to-use liquid formulation
- Compatible with most fungicides, insecticides and PGR's
- May applied using ground equipment, through fertigation or as a soil drench

Small particle size and low molecular weight allow nutrients to move to plant growth points quickly.

### Guaranteed Analysis

Soluble Potash (K<sub>2</sub>O) ..... 6.0%

Derived from potassium silicate.

F76

ALSO CONTAINS NON-PLANT FOOD INGREDIENT:  
5.0% available Silicon (asSiO<sub>2</sub>)

### Application and Use

MANNI-PLEX<sup>®</sup> should be applied to actively growing plants and turf throughout the year. For best results apply early morning or late evening.

#### Turf (Commercial):

Green & Tees: 2-5 fl oz per 1,000 sq ft.

Fairways & Sports Turf: 2.5-6.5 quarts per acre.

Overseeding: 2 fl oz per 1,000 sq ft after germination.

Sod Installation: 2 fl oz per 1,000 sq ft at installation.

For more information, see BRANDT's Summer/Winter Success Spray programs and always read full labels before use.
