

BRANDT® Big Foot®

BRANDT Spray Pattern Indicator

BRANDT BIG FOOT products are a highly concentrated, temporary colorant designed to be used to mark chemical spray solutions. They may be used with all types of spray equipment. BRANDT BIG FOOT products are a great use with herbicides, fungicides, fertilizers, and pesticides.

The use of BRANDT BIG FOOT products eliminate overlapping or skipping of areas and also helps to indicate drift. They are designed for use on golf courses, right of ways, parks, cemeteries or any turf or nursery application.

BRANDT BIG FOOT Advantages

- Great for use with herbicides, fungicides, pesticides, fertilizers and nutrients
- Eliminates overlapping or skipping
- May be used with all types of spray equipment

Super Strength

BRANDT Big Foot Green SS

Designed to mark chemical spray solutions on golf courses, parks, turf, nursery and commercial applications. Eliminates overlapping or skipping of areas. *Super Strength*

BRANDT Big Foot Red SS

Designed to be a temporary spray indicator for use with pesticide and other liquid spray solutions. It provides highly visible evidence of spray application patterns. *Super Strength*

BRANDT Big Foot Foamy

Reduces overlapping and skipping of areas when spraying liquid pesticides or fertilizers. When used with a simple process activated by air pressure, this product is dropped in foamy balls along the edge of the spray area.

Wear rubber gloves and eye protection.

Avoid contact with skin or eyes. In case of eye contact, flush with large amounts of water and consult a physician. If skin contact occurs, wash with soap and water.
