

# Manni-Plex<sup>®</sup> B Moly

## Foliar Micronutrient Supplement

Misstof Groep 2/Fertilizer Group 2  
Reg. nr B 4294 Act / Wet 36/1947

Nitrogen (N).....	.50 g/kg
Boron (B).....	.33 g/kg
Molybdenum (Mo).....	.5 g/kg

### General Information

MANNI-PLEX B MOLY is designed for application to all field, row, vegetable, fruit tree and vine crops, and turf and ornamentals for the prevention of boron and molybdenum deficiency when used as part of a balanced fertility program.

### Rate Recommendations

Apply 2-4 litres per ha by ground or air. Multiple applications are recommended for best results.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

### Mixing and Handling Instructions

Apply in a minimum of 100 litres of water per ha for ground spray equipment and a minimum of 20 litres per ha for aerial application. This product may also be applied via drip or sprinkler fertigation.

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, fertilizers, and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of this product and agitate until thoroughly mixed. Fill tank with remainder of water.

**Net Contents: 10 litres**  
**Packaged: 2 x 10 litres**

**Signal word: WARNING**

**Hazard statements:**

Causes damage to organs through prolonged or repeated exposure.

**Precautionary statements:**

Do not breathe dust/fume/gas/mist/vapors/spray.

Get medical help if you feel unwell.

**Relevant substances:**

Component	Concentration
EDTA	1%-10%

Caution: Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing with phosphate solutions.

**WARNING:** This product is recommended for all crops where boron may be deficient; however overapplication may result in serious injury to susceptible crops. The application of fertilizing material containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

**SG (@ 20° C) = 1.17 ±0.03**

**LIMITED WARRANTY:** The Manufacturer warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. The Manufacturer and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, the Manufacturer and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
