BRANDT Southeast Crop Mix

Nutrient Solution

Guaranteed Analysis

1	Total Nitrogen (N)6.	00%
	6.00% Urea nitrogen	
	Magnesium (Mg)	50%
	Sulfur (S)	
	Boron (B)	20%
	Manganese (Mn)	00%
	Molybdenum (Mo) 0.	01%
	7inc (7n) 0	

Derived from urea, magnesium sulfate, sodium borate, manganese sulfate, sodium molybdate and zinc sulfate. F76

General Information

BRANDT SOUTHEAST CROP MIX is formulated for application to all field, row, vegetable, tree and vine crops for the prevention and correction of nutrient deficiencies when used as part of a balanced fertility program.

Rate Recommendations

Foliar Application:

Ground: Apply 1-2 quarts per acre and repeat as needed.

Aerial: Apply 1-2 pints per acre and repeat as needed.

Soil Application: Apply 1-3 quarts per acre and repeat as needed. Not for use with starter fertilizer.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general plant species and health. For best results, follow soil/tissue test recommendation.

Mixing and Handling Instructions

Apply in a minimum of 10 gallons water per acre for ground spray equipment or 2 gallons water per acre for aerial application. This product may also be applied via drip or sprinkler fertigation.

6-0-0

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing with high phosphate and alkaline (high pH) solutions.

For full strength application, handling or storage equipment MUST consist of either PVCs, polypropylenes, most plastics, or stainless steel. Never use mild steel, nylon, brass, aluminum or copper around, to store, or to handle full strength BRANDT SOUTHEAST CROP MIX. Rinse handling equipment after use if material is susceptible to corrosion.

The use of an adjuvant is recommended. Performing trials with adjuvants may be useful in determining the best inclusion rates for optimal performance.

ITTENTION: This product is recommended for all crops where boron may be deficient; however overapplication may result in serious injury to susceptible crops. The application of fertilizing material containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

DANGER: Causes serious eye damage. Causes skin irritation. Suspected of damaging fertility or the unborn child.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear eye/face protection and protective clothing/gloves. Wash thoroughly after handling. Avoid release to the environment. First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Immediately call a doctor. If on skin: Wash with plenty of water. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse. Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.

LIMITED WARRANTY: BRANDT Consolidated, Inc.
