

# BRANDT Liqui-Phi™ Liquid Phosphite Fertilizer

BRANDT LIQUI-PHI is an efficient phosphite fertilizer designed to improve turfgrass vigor and performance under environmental pressure. This product should be used routinely and sequentially prior to the onset of abiotic stress. Topical applications of phosphorus acid to plants have been shown to upregulate secondary, or defense, metabolism.

BRANDT LIQUI-PHI has proprietary additive ingredients to further improve turfgrass vigor; including enhanced photosynthesis and root growth. It is economically priced and manufactured to strict quality control standards with the industry's finest technical-grade materials.

## Key Advantages

- Improves photosynthesis
- Encourages tillering and root development
- Aids overall plant establishment
- Drives secondary metabolic responses
- Reduces mid-day wilt

## Guaranteed Analysis

Soluble Potash (K<sub>2</sub>O) ..... 25.0%

Derived from potassium phosphite.

## Rate Recommendations

Green & Tees: 2-5 fl oz per 1,000 sq ft

Fairways & Sports Turf: 2-5 fl oz per 1,000 sq ft

Optimum rate of application will vary depending on treatment interval, soil properties, weather conditions, time of year, plant species and its nutrient requirements.
