

BRANDT® Seaweed Max

Liquid Seaweed Extract

0-0-2

Guaranteed Analysis

Soluble Potash (K₂O) 2.0%

Derived from: Kelp Extract (*Ascophyllum nodosum* and Potassium Hydroxide*) F76
* Potassium Hydroxide as an extraction agent.

General Information

BRANDT SEAWEED MAX is a liquid fertilizer enriched with seaweed extract to improve uptake.

Rate Recommendations

Agricultural Crops

Foliar Applications

Field Crops, Row Crops, Vegetables and Small Fruit: Apply 1-4 pts per acre in a minimum of 10 gallons of spray solution per acre for ground rigs and a minimum of 2.5 gallons of water per acre for aerial applications.

Tree Crops (Nuts and Fruit) & Vines: Apply 1-4 qts per acre in a minimum of 50 gallons of spray solution.

Soil Applications may also be made and are best as a precision application in the root zone and may be made by drip, sprinkler or furrow irrigation systems or in band applications. For trees or individual plants, the product may be diluted as above or sprinkled directly on the soil uniformly under the plant's drip line, then watered.

Turf and Ornamental

Putting Greens and Tees, Fairways, Sports Turf and Lawns

Maintenance: 1.5-3 fl. oz. per 1,000 sq ft or 0.5-1 gallons per acre every 7 to 14 days as needed.

Overseeding: 2-4 fl. oz. per 1,000 sq ft or 0.75-1.25 gallons per acre, applied every 7 to 21 days after germination and plants have reached the 3 tiller phase. Most effective when used as part of an overall overseeding nutritional program.

Ornamental Plants:

Apply 1-2 fl. oz. per 1 gallon of water as a foliar spray every 7 to 14 days, as needed.

Tree and shrub maintenance: For deep root feeding inject 1 gallon per 100 gallons of water per inch of trunk diameter at chest height. Apply 1-2 gallons per 100 gallons of water as a drench. Apply drench throughout the year or during drought stress conditions.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year and plant species.

Mixing and Handling Instructions

Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to BRANDT Consolidated, Inc. and giving the lot number which is found on the container or label.

Precautionary Statements: Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.
