

GRIGG® P-K PLUS®

RATE RECOMMENDATIONS FOR PROFESSIONAL USE ONLY

To prevent or correct nutrient deficiencies, apply GRIGG P-K PLUS as a foliar spray early in the morning or late afternoon. Allow 3-6 hours for drying time before irrigation. Best to apply after mowing.

Cool or Warm Season Grasses: Apply 6 fl oz per 1,000 sq ft or 2 gal per acre [20 L per hectare] every 14 days.

Optimum rate of application will vary depending on treatment interval, soil properties (such as pH, organic matter content, texture), weather conditions, time of year, plant species and its nutrient requirements. For best results, follow soil/tissue test recommendation.

MIXING AND HANDLING INSTRUCTIONS

Agitate before use. Apply in 1-2 gal of water per 1,000 sq ft (44-88 gal of water per acre) [400-800 L of water per hectare]. Fill mix tank with half of required water volume and begin agitation. Add products in this order, mixing thoroughly after each addition: adjuvants, pesticides, then fertilizers. Fill tank with remainder of water and continue agitation until solution is completely mixed. Check chemical mixture compatibility using a jar test prior to application.

ATTENTION: This product contains phosphites and may be phytotoxic to plants. Phosphite is not a source of plant available phosphorus. Do not use if the plants or soil/growing media is deficient in plant available phosphate. Based on soil/growing media conditions, and nutrient requirements of the plant(s), the use or misuse of phosphites may trigger a phosphate starvation response (restrict a plant's uptake of phosphate).

GUARANTEED ANALYSIS

Total Nitrogen (N)	3.00%
0.90% Ammoniacal nitrogen	
2.10% Urea nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	5.00%
20.00% Total Phosphoric Acid (P ₂ O ₅)	
Soluble Potash (K ₂ O)	17.00%
Boron (B)	0.02%
Cobalt (Co)	0.01%
Molybdenum (Mo)	0.001%
Derived from monoammonium phosphate, urea, potassium phosphite, sodium borate, cobalt sulfate and sodium molybdate.	F76

Phosphorous acid products are for use as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or will be used directly by plants as phosphite ions.

As a soil application to annual crops, a lesser response from initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or roots zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5

GRIGG Proven Foliar® is the turf grass industry's premier foliar nutrient line backed by years of innovation, research and proven results.

ATTENTION: This product contains boron; use on any crops other than those recommended may result in serious injury to the crops. The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices. In Virginia, this lawn fertilizer, which contains phosphorus, is intended only for nonagricultural use on (i) turf during its first growing season, (ii) turf areas being repaired or renovated, and (iii) turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not intended for the routine maintenance of turf.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>

Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the container or label.

DANGER: May cause cancer. Suspected of damaging fertility or the unborn child.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear eye/face protection and protective gloves/clothing. **First Aid:** If exposed or concerned, get medical attention. **Storage and Disposal:** Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.
