| 2. Hazard(s) identification      |  |  |                     |
| Physical hazards                 | Not classified.  |  |                     |
| Health hazards                   | Acute toxicity, inhalation   |  | Category 4          |
|                                  | Serious eye damage/eye irrit   | tation   | Category 2A         |
| Environmental hazards            | Not classified.  |  |                     |
| OSHA defined hazards             | Not classified.  |  |                     |
| Label elements                   | <u>(!</u> )  |  |                     |
| Signal word                      | Warning  |  |                     |
| Hazard statement                 | Causes serious eye irritation  |  |                     |
| Precautionary statement          |  |  |                     |
| Prevention                       | Wash thoroughly after handling. Wear eye protection/face protection.                             |  |                     |
| Response                         | If in eyes: Rinse cautiously with water for several minutes. Remove cor                          |  |                     |

Precautionary statementPreventionWash thoroughly after handling. Wear eye protection/face protection.ResponseIf in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and<br/>easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.StorageStore away from incompatible materials.DisposalDispose of waste and residues in accordance with local authority requirements.Hazard(s) not otherwise<br/>classified (HNOC)None known.

Supplemental information

#### 3. Composition/information on ingredients

#### Mixtures

None.

| Proprietary blend of modified<br>vegetable oil and NPE free<br>emulsifier  |   | Mixture                             | 100                 |
|--|---|-------------------------------------|---------------------|
| 4. First-aid measures  |   |                                     |                     |
| nhalation  | Move to fresh air. Call a physician if symptom  | is develop or persist.              |                     |
| Skin contact   | Wash off with soap and water. Get medical at  | ttention if irritation develops and | persists.           |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.  |                                     |                     |
| ngestion   | Rinse mouth. Get medical attention if symptoms occur.   |                                     |                     |
| Nost important<br>symptoms/effects, acute and<br>delayed                   | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.   |                                     |                     |
| ndication of immediate<br>nedical attention and special<br>reatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |                                     |                     |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |                                     |                     |
| 5. Fire-fighting measures  |   |                                     |                     |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carb  | on dioxide (CO2).                   |                     |
| Jnsuitable extinguishing<br>nedia  | Do not use water jet as an extinguisher, as th  | is will spread the fire.            |                     |
| Specific hazards arising from<br>he chemical                               | During fire, gases hazardous to health may be formed.   |                                     |                     |
| Special protective equipment and precautions for firefighters              | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |                                     |                     |
| Fire fighting<br>equipment/instructions                                    | Move containers from fire area if you can do so without risk.   |                                     |                     |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.  |                                     |                     |
| General fire hazards   | No unusual fire or explosion hazards noted.   |                                     |                     |
| 6. Accidental release meas   | sures   |                                     |                     |
| Personal precautions,<br>protective equipment and<br>emergency procedures  | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged contained or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS. |                                     |                     |
| Methods and materials for<br>containment and cleaning up                   | Large Spills: Stop the flow of material, if this is<br>possible. Absorb in vermiculite, dry sand or ea<br>recovery, flush area with water.  |                                     |                     |
|  | Small Spills: Wipe up with absorbent material remove residual contamination.  | (e.g. cloth, fleece). Clean surfa   | ce thoroughly to    |
| Environmental precautions  | Never return spills to original containers for re<br>Avoid discharge into drains, water courses or  |                                     | ection 13 of the SE |
| •  | <b>.</b>  | 5                                   |                     |
| 7. Handling and storage<br>Precautions for safe handling                   | Avoid contact with eyes. Use only outdoors or   |                                     | appropriate perso   |
| Conditions for safe storage,<br>ncluding any incompatibilities             | protective equipment. Observe good industrial hygiene practices.<br>Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible<br>materials (see Section 10 of the SDS).   |                                     |                     |
| 8. Exposure controls/pers  |   |                                     |                     |
|  | This mixture has no ingredients that have PEI   | TIV or other recommended            | ovnoguro limit      |

| Occupational exposure limits | This mixture has no ingredients that have PEL, TLV, or other recommended exposure limit. |
|------------------------------|--|
| Biological limit values      | No biological exposure limits noted for the ingredient(s).                               |

| Appropriate engineering controls  | Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. |
|-----------------------------------|--|
| Individual protection measures,   | such as personal protective equipment  |
| Eye/face protection               | Chemical respirator with organic vapor cartridge and full facepiece.   |
| Skin protection                   |  |
| Hand protection                   | Wear appropriate chemical resistant gloves.  |
| Other                             | Wear suitable protective clothing.   |
| Respiratory protection            | Chemical respirator with organic vapor cartridge and full facepiece.   |
| Thermal hazards                   | Wear appropriate thermal protective clothing, when necessary.  |
| General hygiene<br>considerations | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  |

# 9. Physical and chemical properties

| Appearance                                 | Liquid.   |
|--|---|
| Physical state                             | Liquid.   |
| Form                                       | Liquid.   |
| Color                                      | Amber   |
| Odor                                       | Not available.  |
| Odor threshold                             | Not available.  |
| рН   | Not available.  |
| Melting point/freezing point               | Not available.  |
| Initial boiling point and boiling range    | Not available.  |
| Flash point                                | Not available.  |
| Evaporation rate                           | Not available.  |
| Flammability (solid, gas)                  | Not applicable.   |
| Upper/lower flammability or exp            | losive limits   |
| Explosive limit - lower (%)                | Not available.  |
| Explosive limit - upper (%)                | Not available.  |
| Vapor pressure                             | Not available.  |
| Vapor density                              | Not available.  |
| Relative density                           | 1.232 g/cm³   |
| Solubility(ies)                            |   |
| Solubility (water)                         | Not available.  |
| Partition coefficient<br>(n-octanol/water) | Not available.  |
| Auto-ignition temperature                  | Not available.  |
| Decomposition temperature                  | Not available.  |
| Viscosity                                  | Not available.  |
| Other information                          |   |
| Explosive properties                       | Not explosive.  |
| Oxidizing properties                       | Not oxidizing.  |
| Pounds per gallon                          | 10.28 lb/gal  |
| 10. Stability and reactivity               |   |
| Reactivity                                 | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| Chemical stability                         | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions      | No dangerous reaction known under conditions of normal use.                                   |

Contact with incompatible materials.

Conditions to avoid

| Incompatible materials  | Strong oxidizing agents.                       |
|-------------------------|--|
| Hazardous decomposition | No hazardous decomposition products are known. |
| products                |  |

#### 11. Toxicological information

#### Information on likely routes of exposure

| Inhalation   | No adverse effects due to inhalation are expected.  |
|--|---|
| Skin contact   | No adverse effects due to skin contact are expected.  |
| Eye contact  | Causes serious eye irritation.  |
| Ingestion  | Expected to be a low ingestion hazard.  |
| Symptoms related to the physical, chemical and toxicological characteristics | Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. |

#### Information on toxicological effects

| 6                                 |  |
|-----------------------------------|--|
| Acute toxicity                    | Not available.   |
| Skin corrosion/irritation         | Prolonged skin contact may cause temporary irritation.                                   |
| Serious eye damage/eye irritation | Causes serious eye irritation.   |
| Respiratory or skin sensitization |  |
| <b>Respiratory sensitization</b>  | Not a respiratory sensitizer.  |
| Skin sensitization                | This product is not expected to cause skin sensitization.                                |
| Germ cell mutagenicity            | No data available to indicate product or any components present at greater than 0.1% are |

# Carcinogenicitymutagenic or genotoxic.Not classifiable as to carcinogenicity to humans.

| IARC Monographs. | <b>Overall Evaluation</b> | of Carcinogenicity |
|------------------|---------------------------|--------------------|
|                  |                           |                    |

```
Not listed.
```

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1053)

Not listed.

#### US. National Toxicology Program (NTP) Report on Carcinogens

| Not I | isted. |
|-------|--------|
|-------|--------|

| Reproductive toxicity                                 | This product is not expected to cause reproductive or developmental effects. |
|---|--|
| Specific target organ toxicity - single exposure      | Not classified.  |
| Specific target organ toxicity -<br>repeated exposure | Not classified.  |

Aspiration hazard

Not an aspiration hazard.

# 12. Ecological information

| Ecotoxicity                   | The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. |
|-------------------------------|--|
| Persistence and degradability | No data is available on the degradability of any ingredients in the mixture.   |
| Bioaccumulative potential     | No data available.   |
| Mobility in soil              | No data available.   |
| Other adverse effects         | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.            |

#### 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of<br>contents/container in accordance with local/regional/national/international regulations.                            |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some<br>product residues. This material and its container must be disposed of in a safe manner (see:<br>Disposal instructions). |

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

# 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### IATA

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

#### 15. Regulatory information
