

BRANDT® Uptake® COC

Crop Oil Concentrate

BRANDT Uptake COC is formulated to boost the effectiveness of certain pesticides. This crop oil concentrate combines a superior paraffinic oil with a surfactant to increase coverage, penetration, and uptake of active ingredients - helping deliver better results across a range of crop protection programs.

Key Benefits

- Improves certain pesticide performance where a COC is recommended
- Enhances penetration and absorption
- Promotes even coverage
- Compatible with most pesticides

Principal Functioning Agents:

Paraffinic petroleum oil and Alcohol ethoxylate	100%
Total	100%

Application and Use

Air or Ground: Use 1-4 pints per 15-100 gallons of finished spray solution. For improved efficacy, use at least 1 pint per acre when finished spray volume is less than 20 gallons per acre. For backpack or hand held sprayers, use 1 fluid ounce per gallon of finished spray solution.

Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume, except when used as a diluent for basal bark applications of herbicides. This product may be used on agricultural, forestry, turf and ornamental, industrial, and non-cropland sites.

This may only be sold in states where registered or where registration is not required. For information regarding product availability in your area, please contact Brandt Consolidated, Inc.
