Not classified.		
Serious eye damage/eye irrit	tation	Category 2B
Hazardous to the aquatic envine the aquatic envine the second sec	vironment, acute	Category 3
Hazardous to the aquatic envice the second s	vironment,	Category 3
Not classified.		
None.		
Warning		
Causes eye irritation. Harmful to aquatic life. Harmful to aquatic life with long lasting effects.		
Wash thoroughly after handling. Avoid release to the environment.		
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.		
Store away from incompatible materials.		
Dispose of contents/container in accordance with local/regional/national/international regulations.		
None known.

## 3. Composition/information on ingredients

**Mixtures** 

Chemical name	Common name and synonyms	CAS number	%
Ammonium Sulfate		7783-20-2	30-< 40*

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.
5. Fire-fighting measures	

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Prevent product from entering drains.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use.
Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Avoid contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container.
8. Exposure controls/perso	onal protection
Occupational exposure limits	This mixture has no ingredients that have PEL. TLV. or other recommended exposure limit.

Occupational exposure limits	This mixture has no ingredients that have PEL, TLV, or other recommended exposure limit.
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

#### Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.
Other	Wear suitable protective clothing.
<b>Respiratory protection</b>	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

## 9. Physical and chemical properties

#### Appearance

Physical state	Liquid.
Form	Liquid. Aqueous solution.
Color	Colourless to light yellow.
Odor	Not available.
Odor threshold	Not available.
рН	> 6 - < 7
Melting point/freezing point	455 °F (235 °C) estimated
Initial boiling point and boiling range	219.2 °F (104 °C) estimated
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	0.00001 hPa estimated
Vapor density	Not available.
Relative density	1.184 g/ml (typical)
Solubility(ies)	
Solubility (water)	100 %
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
Percent volatile	66 % estimated
pH in aqueous solution	> 5 - < 7 (2% Solution)
Pounds per gallon	9.88 lb/gal (typical)
Specific gravity	> 1.17 - < 1.19 (@ 68 degrees F)
10. Stability and reactivity	

### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.

Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

## 11. Toxicological information

#### Information on likely routes of exposure

	posure
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Irritation of eyes. Exposed individuals may experience eye tearing, redness, and discomfort.
Information on toxicological effe	cts
Acute toxicity	Not available.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/eye irritation	Causes eye irritation.
Respiratory or skin sensitization	
Respiratory sensitization	Not a respiratory sensitizer.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Not listed.	Substances (29 CFR 1910.1001-1053)
Not listed.	gram (NTP) Report on Carcinogens
	This product is not expected to cause reproductive or developmental effects.
Not listed.	
Not listed. Reproductive toxicity Specific target organ toxicity -	This product is not expected to cause reproductive or developmental effects.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity -	This product is not expected to cause reproductive or developmental effects. Not classified.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard 12. Ecological information Ecotoxicity Persistence and degradability	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard 12. Ecological information Ecotoxicity	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard <b>12. Ecological information</b> Ecotoxicity Persistence and degradability Bioaccumulative potential Mobility in soil	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available. No data available.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard <b>12. Ecological information</b> Ecotoxicity Persistence and degradability Bioaccumulative potential	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard <b>12. Ecological information</b> Ecotoxicity Persistence and degradability Bioaccumulative potential Mobility in soil	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available. No data available. No data available. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard <b>12. Ecological information</b> Ecotoxicity Persistence and degradability Bioaccumulative potential Mobility in soil Other adverse effects	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available. No data available. No data available. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
Not listed. Reproductive toxicity Specific target organ toxicity - single exposure Specific target organ toxicity - repeated exposure Aspiration hazard <b>12. Ecological information</b> Ecotoxicity Persistence and degradability Bioaccumulative potential Mobility in soil Other adverse effects <b>13. Disposal consideration</b>	This product is not expected to cause reproductive or developmental effects. Not classified. Not classified. Not an aspiration hazard. Harmful to aquatic life with long lasting effects. No data is available on the degradability of this product. No data available. No data available. No data available. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. <b>S</b> Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with

Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or line product residues. This material and its container must be disposed of in a	
Contaminated packaging	Disposal instructions). Since emptied containers may retain product residue, follow label warning	
	emptied. Empty containers should be taken to an approved waste handlir disposal.	ng site for recycling or
