Extender • Sticker

Principal Functioning Agents:

Pinene (diterpene) polymer; Alcohol ethoxylate;
Methylated seed oil100.0%

CA Reg. No. 48813-50031-AA

WA Reg. No. 48813-24003

KEEP OUT OF REACH OF CHILDREN

WARNING 

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye and skin irritation. Harmful if swallowed or if in contact with skin. Wear eye protection, face protection, protective gloves and protective clothing. Do not get in eyes, on skin or on clothing. Do not eat, drink or smoke when using this product. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Take off contaminated clothing and wash before reuse. Avoid release to the environment.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning of equipment or disposal of wastewater.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF IN EYES: Rinse cautiously with water for 15 to 20 minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If eye irritation persists, get medical attention.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. If skin irritation occurs, get medical advice. Call a poison control center or doctor if you feel unwell.

IF SWALLOWED: Call a poison control center or doctor if you feel unwell. Rinse mouth.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call CHEMTREC at 1-800-424-9300 for emergency.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Protect from freezing temperatures. Store above 40°F. Store in original container away from children, animals, foods, feeds, seeds and incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

BRANDT® Organics Umbrella

DIRECTIONS FOR USE

BRANDT ORGANICS UMBRELLA is an extender and sticker designed to extend the life of pesticides. It may be used with all pesticide products and soluble fertilizers. BRANDT ORGANICS UMBRELLA forms a soft film that holds a pesticide on the plant surface, improving adhesion and protection from unwanted rainfall wash-off, volatility, and ultraviolet light (UV) degradation. Under most conditions, apply sprays containing BRANDT ORGANICS UMBRELLA and allow at least one hour of daylight before an anticipated rain. Sunlight for this time period is required for the protective film to set. NOT FOR AQUATIC USE.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT ORGANICS UMBRELLA. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT ORGANICS UMBRELLA is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Fill spray tank $\frac{1}{2}$ full of water and begin agitation. Add products as directed by label or in the following sequence and continue filling tank; (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. **Add the recommended amount of BRANDT ORGANICS UMBRELLA last.** Continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Smooth, waxy, or hairy foliage will require higher rates. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

Aircraft or ground: Use 1 pint of this product per acre.

Hydraulic gun or air blast sprayer: Shade, Fruit and Nut trees (dilute): Use 6 to 8 fluid ounces of this product per 100 gallons of water.

Dilute application of citrus sprays when spray volume is 1,000 to 1,500 gallons per acre: Use 2 pints of this product per 500 gallons of spray mix.

Concentrate sprays when spray volume is approximately 100 gallons or less per acre: Use 1 pint of this product per acre.

Turf applications: Use 8 to 16 fluid ounces of this product per acre.

Vegetable and Cotton: Use 4 to 16 fluid ounces of this product per acre.

Pears: Use 2 pints per acre on Pears prior to cluster bud in no less than 200 gallons of water.

This product used at the rate of 4 fluid ounces per acre enhances the sticking activity of insecticides and fungicides. This product used at the rate of 8 fluid ounces per acre provides some extension of most insecticides and fungicides.

Do not apply this product to food crops within 30 days of harvest except as follows: This product can be used with copper fungicides, Bacillus thuringiensis products and other tolerance exempt pesticides on food crops up to harvest.

Note: Use of this product with tolerance exempt pesticides close to harvest may result in visible residues on crops which may render the crops unsalable. If this is potential problem, the rate of the product should be reduced, or the product should not be used close to harvest. Do not apply to food crops with 30 days of harvest when Bacillus thuringiensis products are combined in the spray tank with other insecticides.

LIMITED WARRANTY: BRANDT Consolidated, Inc. ("BCI") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. BCI AND SELLER MAKE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, BCI and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
