Foliar Nutrients

Scan to see how BRANDT Manni-Plex works

BRANDT® Manni-Plex® High Performance Foliar Nutrients

BRANDT Manni-Plex delivers the right nutrients, in the right form which allows for maximum turf health. Unlike other nutrient forms, the nutrient elements in BRANDT Manni-Plex formulations are complexed with sugar alcohol. The proprietary complex has a very small molecular size and shape, which allows BRANDT Manni-Plex to enter the plant through small stomata and transcuticular pores on the leaf surface and helps get more nutrients into the turfgrass.

Once BRANDT Manni-Plex nutrients are inside the plant, they move quickly and freely through the phloem to the plant growth areas. This allows the plant to fully utilize the applied nutrients, which results in improved plant health and turfgrass quality.

The correlation of sugar alcohol complexes and nutrient mobility within plants have been validated in University studies. Research showed that plants that were rich in sugar alcohol complexes, such as mannitol, had better distribution of nutrients such as boron from leaves through the phloem and a higher accumulation in fruit tissues.

Key Benefits

- Formulated with a sugar alcohol complex, which turfgrass views as a natural source
- Small molecular size and shape improves nutrient absorption
- Nutrients support plant physiological processes including growth, development and response to environmental stress
- Proprietary formulation coats leaves and adheres to the leaf surface, making it available to the plant longer
- Compatible with most insecticides, fungicides and PGR's
- May also be used in fertigation

BRANDT® Foli-Cal®

5-0-0 10.0% Ca

Derived from calcium acetate, calcium nitrate

BRANDT Manni-Plex Cal-Mag

7-0-0 5.3% Ca 2.6% Mg

Derived from calcium nitrate, magnesium nitrate

BRANDT Manni-Plex Eagle

Derived from urea ammonium nitrate, potassium nitrate, magnesium nitrate, copper nitrate, iron nitrate, manganese nitrate, sodium borate and sodium molybdate

BRANDT[®] **Smart System**[®] Compatible Foliar Nutrients

BRANDT Smart System foliar micronutrients were designed for superior performance in a wide range of complex tank mixes. These formulations provide high quality, readily available nutrients to the plants in a highly efficient and mobile form.

Benefits of Foliar Feeding

Foliar feeding is one of the most efficient ways to supply nutrition to the plant during critical growth stages. Applying nutrition to plant leaves allows the plant to immediately absorb nutrients, which promotes better plant uptake, and better overall plant health.

Key Benefits

- Formulated for superior tank mix compatibility with fungicides, insecticides, glyphosate and other herbicides
- Proprietary molecules are formulated for rapid nutrient uptake and delivery to plant growing points
- Superior tank mix compatibility over a broad pH range
- Maximum nutrient mobility and efficiency, which allows for a lower application rate per acre
- Low salt index and low impurities
- Healthier plants, stress mitigation, and enhanced quality

BRANDT Smart System Formulations

BRANDT Smart Fe

2.0% S 4.0% Fe

Derived from ferrous sulfate

BRANDT Smart Fe is a high efficiency foliar iron formulation in the top-selling BRANDT Smart System product line. It offers 4% iron with a spike of 2% sulfur.

BRANDT Smart Mn Plus

5-0-0 2.0% S 4.0% Mn

Derived from urea and manganese sulfate

BRANDT Smart Mn Plus contains nitrogen, sulfur and manganese to promote plant strength and growth.

BRANDT Smart Quatro® Plus

5-0-0 2.0% S 0.5% B 2.0% Mn 0.05% Mo

Derived from urea, boric acid, manganese sulfate, sodium molybdate and zinc sulfate

BRANDT Smart Quatro Plus contains a full micronutrient package, including boron, manganese, molybdenum, zinc and sulfur. It supplies high quality, readily available nutrients to plants in a highly efficient and mobile form.

Specialty Nutrients

BRANDT Converge

Nutrition with Nitamin[®] Extended Release

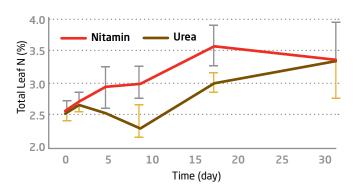

BRANDT Converge formulations contain Nitamin, a targeted foliar nitrogen and patented liquid nutrient source. It is designed to make some nitrogen immediately available, while reserving the rest to provide a steady supply of nitrogen.

Key Benefits

- Nitamin is applied directly to the leaf surface for rapid absorption and green-up
- Low salt index and low levels of ammonia and biuret, it is a safe fertilizer solution
- Due to its high N concentration, it stays soluble longer delivering enhanced foliar uptake over an extended period of time
- Compatible with a wide range of micronutrients and plant protection chemicals

Enhanced Nitrogen Uptake

Source: University of Florida, Dr. Gene Albrigo, Dr. James Syvertesen

BRANDT Converge SRN 18-0-6

18-0-6 0.05% Cu 0.1% Fe 0.05% Mn 0.05% Zn

0.6% Nitrate nitrogen

12.0% Urea nitrogen
Derived from potassium nitrate, triazone, methylene urea, urea, copper EDTA, iron EDTA, manganese EDTA and zinc EDTA

This fully chelated micronutrient package can be taken up either by foliar or soil absorption. The unique blend of ingredients provides quick greening to turfgrasses without rapid top growth.

BRANDT Converge SRN 18-3-6

18-3-6 0.05% Cu 0.1% Fe 0.05% Mn 0.05% Zn

0.6% Nitrate nitrogen 12.0% Urea nitrogen

Derived from potassium nitrate, triazone, methylene urea, urea, potassium polyphosphate, copper EDTA, iron EDTA, manganese EDTA and zinc EDTA

This fully chelated micronutrient package can be taken up either by foliar or soil absorption. The unique blend of ingredients provides quick greening to turfgrasses without rapid top growth.

BRANDT Converge SRN 30-0-0

30-0-0

12% Urea nitrogen
Derived from triazone, methylene urea and urea

This product supports consistent plant growth, enhances root development, and boosts overall vigor. Designed for foliar nutrition, it's non-burning and safe for plant contact. This SRN source provides extending feeding and mixes well with micronutrients and crop protection products.

*up to 60% slowly available nitrogen

Bio-Stimulants

BRANDT BioFlex*

1,2,3-Propanetriol, fulvic acid, alkyl polyglucoside, phytosterols .	80%
Constituents Ineffective as Spray Adjuvant	<u>20%</u>
Total	100.0%

Stress Mitigating Phytosterols and Fulvic Acid

All ingredients are exempt from the requirements of tolerance as specified under Title 40 CFR part 180.

25% Fulvic Acid and >180 ppm Encapsulated Phytosterol 18% Surfactant Content

BRANDT BioFlex combines the resilience-enhancing properties of phytosterols and fulvic acid to improve plant performance under environmental stresses such as heat, salinity, and drought

Liquid Phosphite Nutrient Blends

BRANDT® Liqui-Phi™

0-0-25

Derived from potassium phosphite

Highly soluble phosphite fertilizer. Promotes plant and turf vigor, root development and transplant establishment.

BRANDT® Mega-Phi™

contains **BRANDT iHammer** technology

2-0-16

Derived from urea and potassium phosphite

Highly soluble phosphite fertilizer with a spike of nitrogen. Promotes plant and turf vigor, root development and transplant establishment.

Soil Applied **Liquid Nutrients**

BRANDT 20-K

2-0-20

Derived from urea, potassium acetate

A high potassium foliar fertilizer that prevents and corrects deficiencies quickly and efficiently. It is unique to other forms of potassium because of the organic-based nutrient carrier: acetate. Low salt index and has excellent compatibility with other fertilizers and turf protectants.

BRANDT 30-K

0-0-30

Derived from potassium carbonate

30% liquid potassium fertilizer. Potassium promotes root growth and impacts plant response to stress.

BRANDT Flash Dance

1-0-0 5.0% Fe

Derived from urea, ferrous sulfate

5% liquid iron supplement with penetrants that enhance uptake. Iron improves turf color and provides quick green up. It is especially useful before tournament play.

BRANDT MKS

0-0-4 2.1% Mg 3.2% S

Derived from sulfate of potash magnesia

Specialty fertilizer that contains highly available and efficient Mg, K and S. Corrects nutrient deficiencies. Improves turf strength, vigor and color [by supplying Mg, which is essential to chlorophyll production].

BRANDT Supreme Green

12-0-0 0.5% Mg 4.0% S 5.0% Fe 1.0% Mn

Derived from urea, magnesium sulfate, ferrous sulfate and manganese sulfate

Contains 12% liquid nitrogen and a micronutrient package. Improves turf vigor. Nitrogen promotes consistent turfgrass shoot growth. Compatible with most fertilizers.

^{*}Not available in CA.

BRANDT Agra Sol* Dry Lignosulfonate Nutrient

AGRA SOL dry soluble powder chelated micronutrients are the most economical way to supply micronutrients to plants. They mix easily with water and can be applied alone, with non-phosphorus liquid fertilizers. They can also be added in fertigation or to dry granular fertilizers.

BRANDT Agra Sol Micro Mix

Derived from magnesium sulfate, sodium borate, copper lignosulfonate, iron lignosulfonate, manganese lignosulfonate, sodium molybdate and zinc lignosulfonate

BRANDT Agra Sol Turf Mix

4.0% Mg 0.5% B 2.0% Fe 2.0% Mn 0.5% Zn

Derived from magnesium sulfate, sodium borate, iron lignosulfonate, manganese lignosulfonate and zinc lignosulfonate

BRANDT Agra Sol 15% Fe

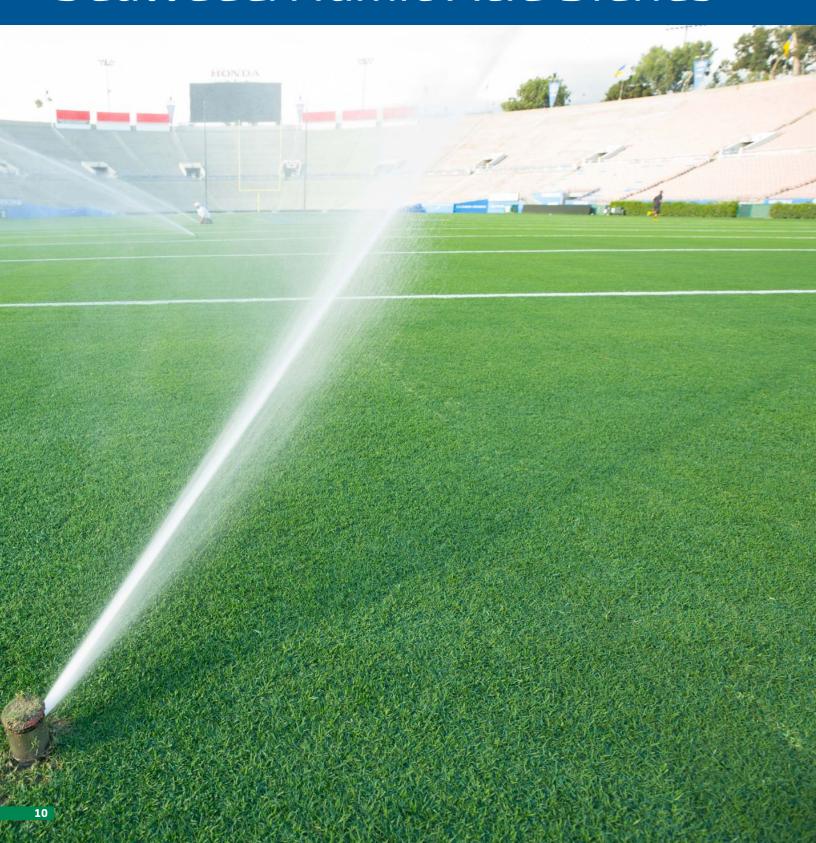

15.0% Fe

Derived from iron lignosulfonate

*Not all BRANDT Agra Sol formulations are listed in this catalog. To learn more, talk to your BRANDT territory sales manager.

Seaweed/Humic Acid Blends

BRANDT Humic 12

0-0-3

Derived from potassium hydroxide ALSO CONTAINS NONPLANT FOOD INGREDIENT: 12% humic acid derived from leonardite. Humic acid analyzed by acid precipitation method.

Increases micronutrient uptake and is readily dispersed in most fertilizer or micronutrient products.

BRANDT Humic Plus

4-0-1 4.0% S

Derived from ammonium sulfate and potassium hydroxide ALSO CONTAINS NONPLANT FOOD INGREDIENTS: 10% Humic acids derived from leonardite ore.

A highly charged humic acid designed for NPK fertilizers, offering a superior compatibility with phosphate solutions without precipitating like traditional humates.

BRANDT In-Cyte

3-12-1

Derived from ammonium polyphosphate, potassium citrate and kelp extract (Ascophyllum nodosum)

12% liquid phosphate with sea plant extract derived from Ascophyllum nodosum.

BRANDT Parco-Root XL

1.5% Mg 4.0% S 0.16% B 3.5% Fe 0.75% Mn

0.003% Mo 0.75% Zn

Derived from magnesium sulfate, sodium borate, iron EDTA, ferrous sulfate, manganese sulfate, sodium molybdate, and zinc sulfate

Special formulations of natural biostimulants and essential micronutrients containing solubilized forms of essential amino acids, vitamins, humic matter and chelating agents. Builds turf strength and supports root growth. May be used as a foliar or soil application.

BRANDT Plant Start

8-27-2 0.001% Mo

Derived from ammonium phosphate, potassium polyphosphate, sodium molybdate and kelp (Ascophyllum nodosum)

27% concentrated liquid plant food formulated to promote early growth and healthy root systems. This product is recommended for use as a supplement to a well balanced fertilizer program.

BRANDT Seaweed Max

Derived from: Kelp Extract (Ascophyllum nodosum and Potassium Hydroxide*) * Potassium Hydroxide as an extraction agent.

Promotes early-season root growth, increases root mass, and supports new root and shoot formation. Enhances nutrient uptake in roots and leaves while boosting resistance to disease and pests. Stimulates photosynthesis and microbial activity for stronger plant establishment.

Greens Grade Fertilizers

BRANDT® Noculate® Greens Grade Fertilizers

BRANDT NOCULATE greens grade fertilizers are ultra-fine, dry soluble formulations that contain NPK, microbes, humic acid, and wetting agents. They are recommended for greens maintenance to help maintain strong, vigorous turf.

Key Advantages

- Enhances germination
- Microbes decompose organic materials in the soil
- Humic acid may aid micronutrient uptake
- Wetting agents reduce surface tension and improve soil water penetration

BRANDT Noculate 8-3-17

8-3-17 4.0% Fe 1.0% Mg 3.1 % Mn 6.0% S

Derived from monoammonium phosphate, urea, methylene urea, potassium sulfate, magnesium sucrate, iron sucrate, manganese sucrate and bio-solids

• 3.0% slowly available nitrogen from methylene urea

BRANDT Noculate 11-2-11

11-2-11 2.0% Mg 12.0% S 0.5% Fe

Derived from ammonium sulfate, monoammonium phosphate, potassium sulfate, magnesium sucrate, iron sucrate and bio-solids

BRANDT Noculate 13-4-13

Derived from monoammonium phosphate, urea, methylene urea, potassium sulfate, magnesium sucrate, iron sucrate, manganese sucrate and bio-solids

• 1.5% slowly available nitrogen from methylene urea

BRANDT® Parco-Blend™ Fertilizers

BRANDT Parco-Blend 13-2-13

13-2-13 3.5% Ca 1.5% Fe 4.8% Mg 1.5% Mn 6.0% S

Derived from ammonium sulfate, monoammonium phosphate, methylene urea, potassium sulfate, dolomite, magnesium sucrate, iron sucrate and manganese sucrate

• 5.0% Slowly available nitrogen from methylene urea

Pest and Disease Control

Fungicides, Insecticides and Miticides

BRANDT® TurfZilla™

Fast acting liquid phosphite fungicide designed to control certain diseases on turf and ornamental crops. Prevents disease through multiple modes of action, thus decreasing the chance for the development of resistant pathogen strains. Contains phosphorus acid.

TriTek®

Broad spectrum 3-in-1 fungicide/insecticide/miticide.

Formulated with highly refined, emulsified mineral oil.

Effectively coats plant surface to smother and kill pests/disease.

Nematicides

BRANDT Neo-Tec® S.O.

Liquid nematicide derived from sesame plant extract. Knocks down parasitic nematodes quickly. May be used on golf courses and sports fields. Also available in granular form: Neo-Tec G.S.O.

Scan to learn more about BRANDT Neo-Tec S.O.

Adjuvants

Surfactants

Non-Ionic Surfactants

BRANDT Magnify

Non-ionic surfactant and water conditioner. Contains ammonium ions to improve activity, wetting, spreading and penetration. Designed for use with herbicides, defoliants and desiccants that require ammonium sulfate/nitrate and a surfactant. Recommended for use with glyphosate and other non-selective herbicides.

Multi-Function Adjuvants

BRANDT No Foam B

Non-ionic surfactant and activator. Promotes quick wetting and uniform spreading of pesticides, including organophosphate formulations. May be used to buffer highly alkaline water. Ideal for use with fungicides/insecticides that are sensitive to high pH.

BRANDT Super 7

Multi-function surfactant, penetrant, deposition aid and acidifier. Decreases application surface tension to improve deposition, coverage, penetration and efficacy. Reduces spray drift. Lowers pH of the spray solution to prevent alkaline hydrolysis of pesticides sensitive to high pH.

BRANDT® Torpedo®

Multi-function non-ionic surfactant, penetrant and deposition aid. Designed for use with pesticides when a non-ionic surfactant, crop oil concentrate, or methylated seed oil is required. The pH neutral formulation works well with systemic chemistries. It decreases surface tension of the spray application to improve deposition, coverage and penetration. Helps reduce drift.

Acidifier and Buffering Agents

BRANDT® Indicate 5®

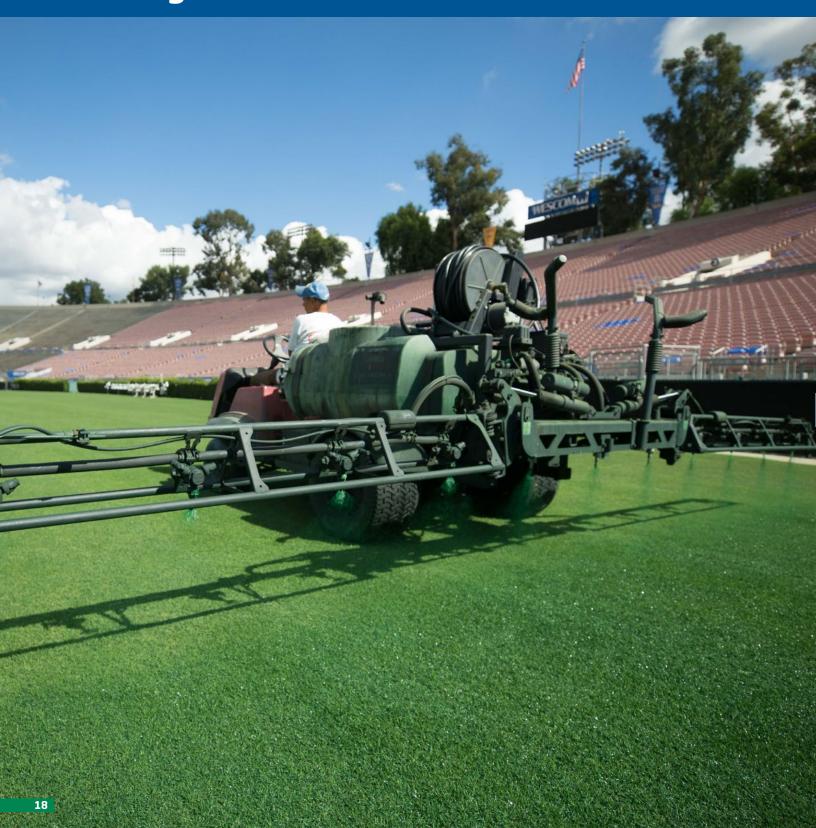

Multi-function non-ionic surfactant, pH indicator and acidifier. Improves spray application coverage and performance. Built-in indicator turns spray water pink when the optimum pH level of 4.5-5.5 is reached.

BRANDT Adjuvants Quick Reference Guide

Product	Use Rate*	Description	Acidifier Buffer	Deposition Aid	Drift Control	Penetrant	Spreader	Water Conditioner	Utility

Utility Products

Spray Pattern Indicators

BRANDT® Big Foot® Blue SS

Concentrated blue colorant and temporary spray pattern indicator for turf and landscape. Also available in regular strength (BRANDT Big Foot Blue regular strength).

BRANDT Big Foot Foamy

Foam spray marker produces highly visible white foam that marks the outside edge of a spray swath. Can be used with any boom or ground sprayer application.

BRANDT Big Foot Green SS

Concentrated green temporary spray pattern indicator and hydroseeding colorant. Ideal for temporary touch ups on turf. Only available in super strength concentrate.

BRANDT Big Foot Red SS

Concentrated red colorant and temporary spray pattern indicator. Designed to replace rhodamine red dyes.

Please see GRIGG® catalog for pigment products.

Equipment Cleaners and Defoamers

BRANDT Defoamer

Tank defoamer. Controls entrained and surface foam in the spray tank.

*Only available for sale in the Eastern U.S.

BRANDT Neutra Clean

Powerful spray tank cleaner and neutralizer. Re-emulsifies and suspends spray tank residue so that it may be removed with ease. Contains built-in water softeners.

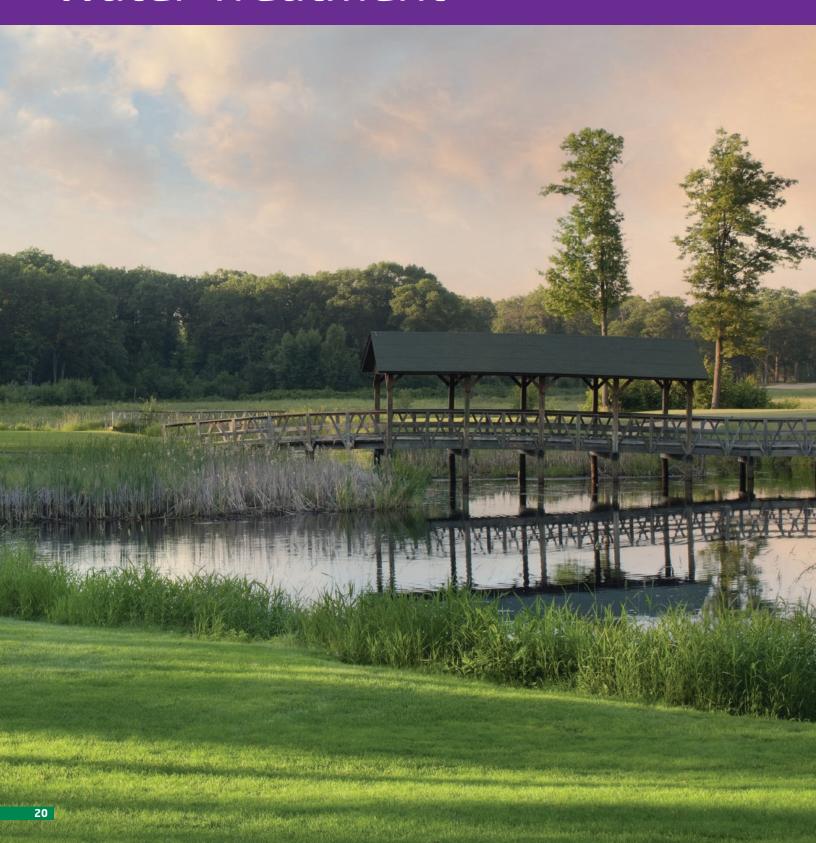

*Only available for sale in the Eastern U.S.

BRANDT Pesticide Equipment Cleaner

Effective, all purpose tank and equipment cleaner. May be used on spray rigs and storage tanks to remove pesticide residue.

*Only available for sale in the Western U.S.

Water Treatment

Algaecides

BRANDT T.A.C.

Proprietary copper sulfate algaecide/bactericide. Provides quick and effective knock down in lakes, ponds, reservoirs, canals, lagoons and other water systems. Helps suppress odors and gases.

Pond Dyes

BRANDT® Blue Lagoon® SS

The flagship of BRANDT aquatic colorants. Provides a nice, even shade of blue throughout the body of water. Also available in regular strength (BRANDT Blue Lagoon regular strength).

BRANDT Blue Shadow SS

Blue green super strength colorant. Creates a deep aquamarine color in lakes, ponds and fountains. Imparts a pleasant shade reminiscent of the deep waters of the Caribbean.

BRANDT® Loch Ness® SS

Super strength black colorant. Has a rich, dark and clean appearance. Popular in landscapes because of the mirror effect it creates.

BRANDT Midnight Blue SS

Super strength blue/black colorant. Gives ponds, lakes, fountains and lagoons a unique deep water hue.

Tree & Ornamental

Tree & Ornamental

BRANDT has select nutritional products that are perfect for your tree and ornamental applications. These products were developed to help establish and maintain a healthy and vibrant plant. Rates available for deep root feedings, injection or drench.

BRANDT Agra Sol Micro Mix

5.0% Mg | 0.5% B | 1.5% Cu | 4.0% Fe | 4.0% Mn | 0.1% Mo | 1.5% Zn |

BRANDT Plant Start

8-27-2 0.001% Mo

Derived from ammonium phosphate, potassium polyphosphate, sodium molybdate and kelp (*Ascophyllum nodosum*)

27% liquid phosphorus fertilizer. Promotes early growth and healthy root systems. Recommended as a supplement in well-balanced nutrition programs.

BRANDT Seaweed Max

0-0-2

Derived from: Kelp Extract (*Ascophyllum nodosum* and Potassium Hydroxide*) * Potassium Hydroxide as an extraction agent.

Promotes early-season root growth, increases root mass, and supports new root and shoot formation. Enhances nutrient uptake in roots and leaves while boosting resistance to disease and pests. Stimulates photosynthesis and microbial activity for stronger plant establishment.

BRANDT TurfZilla

Fast acting liquid phosphite fungicide designed to control certain diseases on turf and ornamental crops. Prevents disease through multiple modes of action, thus decreasing the chance for the development of resistant pathogen strains. Contains phosphorus acid.

Fertilizing Greens Has Never Been Easier

BRANDT Manni-Plex Foliar Nutrients

BRANDT has been an innovator in foliar nutrition for over 70 years. The company's flagship line of foliar nutrients, BRANDT Manni-Plex, is the pillar of BRANDT greens nutrition kits. The proprietary chemistry maximizes nutrient uptake, mobility and efficacy. It is an excellent tool for correcting nutrient deficiencies and maintaining turf vigor throughout the seasons.

Short Course Sugges	Short Course Success Kit - For 2x/Month Application									
			Application Date	Carac						
1 kit treats 1.5 acres for 3 months.	Application Timing	Product	Application Rate	Cases						
-	Spray 1 for month	BRANDT Mega-Phi	1.5 floz / 1,000 sq ft	1						
55 gallons total.		BRANDT Foli-Cal	3 fl oz / 1,000 sq ft	1						
		BRANDT Manni-Plex Grow	3 fl oz / 1,000 sq ft	1						
GRANDT Marco Phil Series SERVICE STATE OF THE SERV		BRANDT Parco Root XL BRANDT Converge SRN 30-0-0	3 floz / 1,000 sq ft 6 floz / 1,000 sq ft	1 2						
	Spray 2 for month	BRANDT Mega-Phi BRANDT MKS BRANDT Converge SRN 18-0-6 BRANDT 20-K BRANDT Seaweed Max	1.5 floz /1,000 sqft 2.5 gal/month 3 floz /1,000 sqft 3 floz /1,000 sqft 3 floz /1,000 sqft	2 1 1						

Nematode Kit - For Monthly Application										
1 kit controls nematodes for 8 months on 3 acres of greens. 75 gallons total.	Application Timing	Product	Application Rate	Cases						
	March - November	BRANDT Neo-Tec S.O.	3 floz /1,000 sq ft once a month	5						
	May - June	BRANDT Plant Start	3 fl oz /1,000 sq ft once a month	2						
	July - October	BRANDT Manni-Plex Ultra Turf	3 floz /1,000 sqft once a month	4						
BRANDT Neo-Tex S.O.		BRANDT Seaweed Max	3 floz / 1,000 sq ft once a month	4						

Products may be applied every other week instead of monthly, just split application rate in half. One turn of irrigation head is necessary to remove NEO-TEC S.O. off blades of grass. If nematodes are present when you are starting the program, apply 6 fl oz/ 1,000 sq ft of NEO-TEC S.O. for the first two months, then apply at 3 fl oz/ 1,000 sq ft once a month for the remainder of the season. Do not use NEO-TEC S.O. with surfactants and watch the amount of water (rain, irrigation, spray volume). Too much water will void the NEO-TEC S.O. application.

BRANDT Sports Turf Program

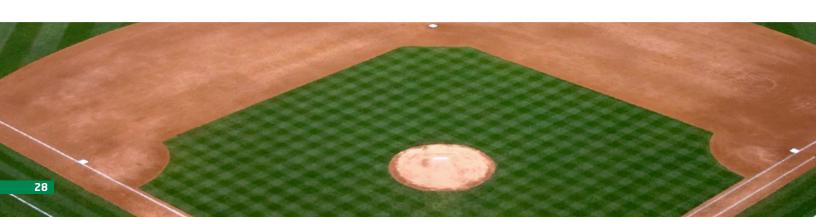

Excellent nutrition program for stronger roots, better turf health and quicker recovery

Sports Turf Success Kit - For 2x/Month Application

March through October Program

Application Timing	Product	Application Rate	Cases

Keep fairways looking good with one of BRANDT's Fairway Nutrition programs. Each program provides a secondary and micronutrient package to maintain turf vigor and color on fairways, at a great value.

Product	Analysis	Application Rate
Option 1: Dry Soluble Powder/	Liquid	
BRANDT Agra Sol Micro Mix BRANDT 20-K	5.0% Mg, 0.5% B, 1.5% Cu, 4.0% Fe, 4.0% Mn, 0.1% Mo, 1.5% Zn 2-0-20	3 lbs/ac 1 gal/ac
Option 2: Dry Soluble Powder/	Liquid	
BRANDT Agra Sol Turf Mix BRANDT MKS	4.0% Mg, 0.5% B, 2.0% Fe, 2.0% Mn, 0.5% Zn 0-0-4, 2.1% Mg, 3.2% S	3 lbs/ac 1 gal/ac
Option 3: Liquid		
BRANDT Parco-Root XL BRANDT 20-K	1.5% Mg, 4.0% S, 0.16% B, 3.5% Fe, 0.75% Mn, 0.003% Mo, 0.75% Zn 2-0-20	1 gal/ac 1 gal/ac

Dry Soluble Nutrients

BRANDT AGRA SOL DRY LIGNOSULFONATES

BRANDT AGRA SOL dry soluble powder chelates are an affordable way to supply micronutrients to plants and turf. They mix easily with water and can be applied alone, added to dry granular fertilizers or applied with non-phosphorus liquid fertilizers.

Liquid Nutrients

BRANDT MKS

Specialty fertilizer that contains highly available Mg, K and S. Corrects nutrient deficiencies. Improves turf strength, vigor and color [by supplying Mg, which is essential to chlorophyll production].

BRANDT 20-K

20% liquid potassium fertilizer. Potassium promotes root growth and impacts plant response to stress.

BRANDT PARCO-ROOT XL

Multi-nutrient formulation is loaded with micronutrients. Builds turf strength and supports root growth. May be used as a foliar or soil application.

Seeding Program

BRANDT's Seeding Program makes fertilization a breeze from pre-planting to post-seeding. The carefully selected nutrition line up provides essential secondary and micronutrients, along with soluble forms of seaweed extract and humic acid. These help support germination, root development and turf vigor. Use this program to ensure great seeding results.

Application Timing	Product	Analysis	Application Rate
Pre-Seed/Pre-Plant Application	ns		
1x Pre-Seed Application	BRANDT Foli-Cal	5-0-0, 10.0% Ca	3 fl oz / 1,000 sq ft
1x Pre-Plant Starter Application	BRANDT Plant Start	8-27-2	3 fl oz / 1,000 sq ft
Post-Seeding Applications			
Option 1: Liquid Foliar Program			
First 2 Weeks	BRANDT Plant Start	8-27-2	3 fl oz / 1,000 sq ft
Week 1 and 3	BRANDT Converge SRN 18-3-6	18-3-6, 0.05% Cu, 0.1% Fe, 0.05% Mn, 0.05% Zn	4.5 fl oz / 1,000 sq ft
Week 2 and 4	BRANDT 20-K	2-0-20	3 fl oz / 1,000 sq ft
	BRANDT Manni-Plex Total Turf	5-0-0, 1.2% Mg, 2.85% Fe, 0.45% Mn, 0.65% Zn	3 fl oz / 1,000 sq ft
	BRANDT Seaweed Max	25.0% Seaweed extract derived from <i>Ascophyllum nodosum</i>	3 fl oz / 1,000 sq ft
Option 2: Granular Program with	Liquid Supplement		
Week 1 and 3	BRANDT Noculate 8-3-17	8-3-17, 1.0% Mg, 6.0% S, 4.0% Fe, 3.1% Mn	4 lb/1,000 sq ft
Week 2 and 4	BRANDT 20-K	2-0-20	3 fl oz / 1,000 sq ft
	BRANDT Manni-Plex Total Turf	5-0-0, 1.2% Mg, 2.85% Fe, 0.45% Mn, 0.65% Zn	3 fl oz / 1,000 sq ft

Grow-In Nutrition Program

In addition to BRANDT liquid products, granular applications of at least 1 lb. of N monthly are suggested. In most cases, a preplant application will not be necessary due to the strength of BRANDT products and the addition of the soil spray applications. Because of the efficient uptake of BRANDT foliar products, daytime irrigation can resume 2 hours after application. Do not start this program until seed is germinated.
