

BRANDT® SeedFlow™ Corn

Premium Seed Flow Agent with High Zinc Concentration

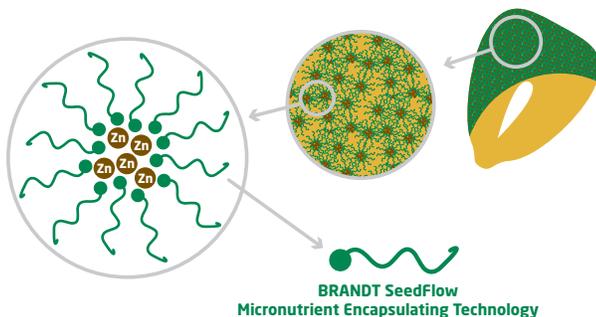

BRANDT SeedFlow Corn is a premium seed flow agent developed for corn production. It combines proven SeedFlow technology with encapsulated micronutrients, delivering targeted nutrition and consistent seed fluency to support early-season development and uniform crop establishment.

Zinc (Zn) is critical for early metabolic activity, root development, and uniform emergence in corn. BRANDT SeedFlow Corn delivers a high Zn concentration in an encapsulated form to support early emergence and even stands.

Key Benefits of BRANDT SeedFlow Corn

- **Improved Nutrient Availability:** Delivers Zn and complementary nutrients directly on the seed to support nutrient availability at planting
- **SeedFlow Technology:** Film-forming, lubricating agent that enhances nutrient retention on the seed, improves overall seed fluency, and reduces dust-off and planter buildup
- **High-Zinc Formulation:** Provides 13% Zn to support early root growth and early-season development
- **Promotes Early Seed Vigor:** Supports uniform emergence and strong root and shoot growth
- **Uniform Seed Coverage:** Designed for consistent application in planter boxes, seed boxes, or seed tenders

Guaranteed Analysis

Sulfur (S)	5.00%
Copper (Cu)	0.25%
Iron (Fe)	1.50%
Manganese (Mn)	3.00%
Molybdenum (Mo)	2.00%
Zinc (Zn)	13.00%

Derived from: sulfur, copper oxide, iron oxide, manganese oxide, molybdenum trioxide, zinc oxide.

Rate Recommendations

The BRANDT SeedFlow Corn pail treats 50 units of corn at 80k seeds per unit. For single-row planters, use the enclosed scoop to measure out blended content.

Number of seeds to treat	80,000	50 units
Weight	1.25 oz	3.97 lbs
Volume	3/8 cup	1 pail

Apply one full pail (3.97 lb) per one full seed box (50 units).

Step 1 (Half-fill + mix): Fill the seed hopper/box about halfway with seed, apply about half the pail evenly (do not dump in one spot), then mix/agitate until coverage looks uniform.

Step 2 (Top off + mix): Add the remaining seed to fill the seed hopper/box (50 units total), apply the remaining pail evenly, then mix/agitate again until coverage is uniform throughout.
