

BRANDT Smart B

Advanced Nutrient Delivery Technology

BRANDT Smart B is a foliar boron formulation built on proven BRANDT® Smart System® technology. This formulation delivers boron through a protected delivery platform designed to improve nutrient uptake and in-plant mobility. Engineered for use in complex tank mixes, BRANDT Smart B helps ensure nutrients remain available in the spray solution and efficiently reach the crop's growing points to support reproductive development and in-season performance.

Key Benefits of BRANDT Smart B

- **Protected Nutrient Delivery:** Smart System technology helps prevent nutrient tie-up in the tank, supporting consistent delivery into the plant
- **Targeted Nutrient Support:** Provides highly available boron to support reproductive development, carbohydrate movement and overall plant structure
- **Enhanced Uptake & Mobility:** Designed to improve foliar absorption and support movement to active growing points
- **Tank Mix Compatible:** Low salt formulation designed for complex tank mixes to support crop safety and consistent nutrient delivery

Plant Nutrient Functions

The nutrient composition is selected to support key physiological processes in crops.

Boron: Supports cell wall integrity, reproductive development, carbohydrate movement, and overall plant structure

Guaranteed Analysis

Boron (B)	5.0%
5.0% Water soluble boron	

Application Recommendations

Foliar Applications

Field Crops, Row Crops, Vegetables and Small Fruit: Apply 0.5-1 pint per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.

Fruit and Nut Tree Crops: Apply 1-4 pints per acre per application throughout the growing season. More frequent applications at 2 pint per acre may be needed to correct deficiencies once they occur.

Ornamentals: Apply 1-2 pints per 100 gallons water. Cover foliage thoroughly to point of runoff.

Soil Applications

All crops: Use 1-3 quarts per acre.
