

BRANDT® Smart Mn

Advanced Nutrient Delivery Technology

BRANDT Smart Mn is a foliar manganese formulation built on proven BRANDT® Smart System® technology. This 6-0-0 formulation delivers manganese along with nitrogen and sulfur through a protected delivery platform designed to improve nutrient uptake and in-plant mobility. Engineered for use in complex tank mixes, BRANDT Smart Mn helps ensure nutrients remain available in the spray solution and efficiently reach the crop's growing points to support in-season performance.

Key Benefits of BRANDT Smart Mn

- **Protected Nutrient Delivery:** Smart System technology helps prevent nutrient tie-up in the tank, supporting consistent delivery into the plant
- **Targeted Nutrient Support:** Provides highly available manganese, nitrogen and sulfur to support photosynthesis, metabolic activity and overall plant development
- **Enhanced Uptake & Mobility:** Designed to improve foliar absorption and support movement to active growing points
- **Tank Mix Compatible:** Low salt formulation designed for complex tank mixes to support crop safety and consistent nutrient delivery

Plant Nutrient Functions

The nutrient combination is selected to support key physiological processes in crops.

Manganese: Supports chlorophyll production and photosynthesis, contributing to overall plant energy and metabolic function

Sulfur: Supports protein and enzyme synthesis essential for plant growth and development

Guaranteed Analysis

6-0-0

Nitrogen (N)	6.0%
6.0% Urea nitrogen	
Sulfur (S)	3.5%
3.5% Combined sulfur	
Manganese (Mn)	6.0%
6.0% Water soluble manganese	

Application Recommendations

FOLIAR APPLICATION

Ground: Apply 1-2 quarts in a minimum of 10 gallons of water per acre and repeat as needed.

Aerial: Apply 1-2 pints in a minimum of 5 gallons of water per acre and repeat as needed

SOIL APPLICATION

Use 1-3 quarts in a minimum of 10 gallons of water per acre. Not for use with starter fertilizer.
