

Improve Your Aquatic Environment

BRANDT is a leading manufacturer of specialty inputs for the agriculture, turf and ornamental, and lawn and garden markets. The company has been at the forefront in offering advanced technology in aquatics. Offering adjuvants, colorants and turf protection solutions to fit every budget and need.

Pond Dyes

BRANDT leads the industry with its range of lake and pond colorants. Designed to enhance water quality, while also beautifying the area with naturally derived organic material to maximize safety. BRANDT was the first to bring super strength concentrated colorants to the aquatic market. These products provide maximum color load in liquid form and packaged in ready-to-pour jugs. Just 1 quart treats 4-6 acre ft.

BRANDT® Blue Lagoon® SS

BRANDT's flagship aquatic colorant provides a nice, even shade of blue throughout the body of water. It is a bird blocker formulation designed to darken water sufficiently to protect against fish poaching in aquaculture environments.

BRANDT Blue Shadow SS

Creates a deep aquamarine color in lakes, ponds and fountains. Imparts a pleasant shade of blue/green for a more natural look.

BRANDT® Loch Ness® SS

BRANDT's famous black formulation has a rich, dark and clean appearance in water. Designed for shallow, muddy ponds and lakes and creates a mirror effect.

BRANDT Midnight Blue SS

Gives ponds, lakes, fountains and lagoons a unique deep water hue from the blue/black colorant.

Algaecides

BRANDT T.A.C. *OMRI Listed*

Proprietary copper sulfate algaecide/bactericide. Provides quick and effective knock down in lakes, ponds, reservoirs, canals, lagoons and other water systems. Helps suppress odors and gases.

These products may only be sold in states where registered or where registration is not required. For information regarding product availability in your area, please contact Brandt Consolidated, Inc. The mark BRANDT is a registered trademark of BRANDT Consolidated, Inc.

Microbes

BRANDT Aqua Bio-Trol SS

A natural, chemical-free solution for maintaining clean, healthy pond and lake water. Formulated with 58 strains of aerobic and facultative bacteria, this high strength microbial system eliminates pond scum, reduces foul odors, and improves water clarity - typically within just two weeks.

Adjuvants

BRANDT Magnify *CPDA Certified*

Non-ionic surfactant and water conditioner. Contains ammonium ions to improve activity, wetting, spreading and penetration. Designed for use with herbicides, defoliants and desiccants that require ammonium sulfate/nitrate and a surfactant. Recommended for use with glyphosate and other non-selective herbicides.

BRANDT® A+™ *OMRI Listed & CPDA Certified*

Proprietary spray-tank adjuvant that contains a novel non-ionic surfactant and drift reduction technology. Humectant properties improve deposition and slow application dry down. Improves application activity and efficacy.

Herbicides

Alligare Diquat

Used to control aquatic weeds in public waters such as ponds, lakes, reservoirs, canals and other water systems.
