Kills Anticoagulant Resistant Norway Rats, Roof Rats & House Mice

Norway Rats, Roof Rats & House Mice Cease Feeding After Consuming A Toxic Dose

RAMPAGE
All-Weather BAIT CHUNX®

This Product May Only Be Installed and Used Without the Use of Residuals.

**ACTIVITY**
Norway rats, roof rats and house mice cease feeding after consuming a toxic dose. Continued feeding may occur for 2-3 days before death occurs. Sensitivity can vary, but all rodents will die if enough bait is ingested to obtain a toxic dose.

**TREATMENT FOR PESTS**

If an animal eats this bait, call a veterinarian at once. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

**DIRECTIONS FOR USE**

1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If used in bait stations, this product must be applied in areas open to children. If used in contact with food, it must be applied in a manner that prevents children from reaching into the bait compartment and obtaining bait.
3. Baiting Strategy:
   - Mice: Use 1 bait block per placement. Space placements at intervals of 8 to 12 feet in infested areas. Larger blocks per manhole. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease. Where a continuous source of infestation is present, establish an on-going plan for baiting.

**SAFETY**

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- To help prevent exposure:
  - Read this entire label and follow all use directions and use precautions.
  - Use only for the sites, pests, and application methods described on this label.
  - Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:
  - Store unused product out of reach of children and pets.
  - Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait.

**FIRST AID**

- Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:

**PRODUCT INFORMATION**

- **Formulation:** Palatable
- **Application:** Be sure to apply this product to areas where rodents will have an excellent chance to feed on the bait. Generally, these areas are along walls, in gnawed openings, in corners and concealed places, between floors and walls, or locations similar to those the rodents have been seen. Remove food, water and other attractants.
- **WARRANTY:** To the extent consistent with applicable law, seller makes no warranty, expressed or implied, for the use of this product.
- **STORAGE AND DISPOSAL:** Keep in an approved waste disposal facility.
- **PESTICIDE DISPOSAL:** Do not contaminate water, food or feed by storage or disposal.

**ACTIVE INGREDIENT:**

- **Norway rats, roof rats and house mice:** 0.01%
