KILLS NORWAY RATS, ROOF RATS AND HOUSE MICE

USE RESTRICTIONS:

Do not expose children, pets, or nontarget animals to rodenticides. To help prevent exposure:
1. Store unused product out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in concealed places, between floors and walls, or in locations where rodents or their signs have been seen.
3. Dispose of product container and unused, spoiled or unconsumed bait as specified on this label.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets. All handlers (including applicators) wear shoes plus socks, and gloves. Anyone who accidentally comes into contact with this material must observe the following procedures:

1. Remove contaminated clothing and shoes. Wash exposed areas of skin with soap and water. Change clothing when contaminated. Remove contaminated clothing and shoes. Wash exposed areas of skin with soap and water. Change clothing when contaminated.
2. If on mucous membranes, flush with water. If in eyes, flush with water. If on skin, wash with soap and water.
3. If swallowed, do not induce vomiting unless told to do so by the poison control center or doctor.

SYMPTOMS AND EFFECTS:

Symptoms, if present, would be the result of cerebral edema and should be treated accordingly (e.g., the contraindication to treatment of seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal ingestion is generally treated by supportive care.

HAZARDS TO RECREATIONAL AND WILD ANIMALS

There is no evidence of harm to nontarget wildlife from this product. However, it will harm wildlife if it is used in areas where it will come into contact with wildlife or wildlife food sources. Caution should be exercised when using this product near wildlife areas, but it is not anticipated to have an adverse affect.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Harmful if swallowed. Keep away from children, domestic animals and pets. All handlers (including applicators) wear shoes plus socks, and gloves. Anyone who accidentally comes into contact with this material must observe the following procedures:

KILLS NORWAY RATS, ROOF RATS & HOUSE MICE

KILLS ANTICOAGULANT RESISTANT
NORWAY RATS, ROOF RATS
AND HOUSE MICE

Norway rats, Roof rats and House mice cease
feeding after consuming a toxic dose.

ACTIVE INGREDIENT:
Bromethalin (CAS #63333-35-7) 0.01%
OTHER INGREDIENTS:* 99.99%
Contains Denatonium Benzoate
TOTAL 100.00%

TREATMENT FOR PET POISONING
If an animal eats this bait, call
a veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN
Contains the nerve poison Bromethalin. This product is
not an anticoagulant type rodenticide. For humans or
animals ingesting bait and/or showing poisoning signs
(such as muscle tremors, loss of hind limb use, or
seizures for animals), limit absorption by either emesis
or gastric lavage. Sublethal symptoms, if present, would
be the result of cerebral edema and should be treated
accordingly through admin-
istration of an osmotic
diuretic and corticosteroid.

CAUTION
