Follow-up:

If reinfestation does occur, repeat treatment.

SPECIMEN LABEL

walls, by gnawed openings, in corners and concealed places. Most likely find and consume the bait. Generally, these areas are beside burrows, along walls, in ground and concealed places.

CAUTION:

If empty, place in trash or offer for recycling if available. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water, food, or feed by storage or disposal.

Follow-up:

If reinfestation does occur, repeat treatment.

Application Directions:

Place the TOMCA T R A T KILLER bait station at highest point of activity beside burrows, along a wall or in corners where rats and/or mice or their signs have been seen. If infested areas. Replace bait stations if contents are consumed or contaminated.

See-thru Lid for Easy Bait Monitoring

TREATMENT PREFERENCES:

For animal used this bait, avoid feeding with a rod.

SELECTION OF TREATMENT AREAS:

Determine areas where rats and/or house mice will be a result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and concomitant fluid.

ENVIRONMENTAL HAZARDS:

This product is a systemic rodenticide. It is not an anticoagulant type rodenticide. For humans or animals ingesting rodenticide and/or showing poisoning signs, consult a veterinarian immediately. To avoid exposure, avoid contamination of food, water, aquatic environments or animal areas. Keep out of reach of children and pets. Place in trash or offer for recycling if available. Do not contaminate water, food, or feed by storage or disposal.

STORAGE AND DISPOSAL:

Do not compost. This product is designed for wall use only. It is not designed for outdoor use. Place in trash or offer for recycling if available. Do not contaminate water, food, or feed by storage or disposal.

PRECAUTIONARY STATEMENTS:

CAUTION:

Care must be taken if applied near children. Do not store in food or feed containers or in areas where children are likely to be exposed to this product.

USES:

For control only of rats and house mice. TOMCA T R A T KILLER bait station must be used in and around buildings consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station in any area where there is a possibility of contamination by children that come in contact with this bait.

USE RESTRICTIONS:

This product is extremely toxic to fish, birds and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this rodenticide. For humans or animals ingesting rodenticide and/or showing poisoning signs, consult a veterinarian immediately. To avoid exposure, avoid contamination of food, water, aquatic environments or animal areas. Keep out of reach of children and pets. Place in trash or offer for recycling if available. Do not contaminate water, food, or feed by storage or disposal.

July 15, 2023

This product is extremely toxic to fish, birds and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Subcutaneous, intravenous, oral gavage, or intramuscular injection should be administered by a veterinarian through administration of an osmotic diuretic and corticosteroid.

**IF INHALED:** Move individual to fresh air. If breathing has become difficult, call a poison control center, doctor, or 1-877-854-2494, or 1-800-858-7378. **Remove individual from area and keep warm.**

**FIRST AID:**

**RAT KILLER** (Rosy Brown Rat Poison) by Motomco (a division of Sumita Agritech Inc.)

**ACTIVE INGREDIENT:** Contains Denatonium Benzoate

**OTHER INGREDIENTS:** 99.99%

**INSTRUCTIONS:**

1. Place the TOMCA TRACKER bait station at highest point of activity beside burrows, along a wall or in corners where rats and/or mice or their signs have been seen. If activity extends along a wall or in corners where rats and/or mice or their signs have been seen. If activity extends beyond burrows, place bait stations at 15 to 30 foot intervals. Maintain a constant supply of fresh bait for 10 days or until signs of rat or mouse activity cease in infested areas. Replace bait stations if contents are consumed or contaminated.

**APPLICATION DIRECTIONS:**

1. Place the TOMCA TRACKER bait station at highest point of activity beside burrows, along a wall or in corners where rats and/or mice or their signs have been seen. If activity extends beyond burrows, place bait stations at 15 to 30 foot intervals. Maintain a constant supply of fresh baits for 10 days or until signs of rat or mouse activity cease in infested areas. Replace bait stations if contents are consumed or contaminated. If reinfestation occurs, repeat treatment. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment. Generally, these areas are beside burrows, along walls, by power lines, in crevices and concealed places.

**USE RESTRICTIONS:**

1. Use restrictions and other requirements indicated on this label. Do not apply further than 50 feet from home or building.

**PRECAUTIONS:**

1. These precautions are necessary to prevent accidental poisonings of children and domestic animals, and to Tampering by Children and Dogs.

**CAUTIONS:**

1. Use caution when applying this product to areas inhabited by children or domestic animals. Birds and mammals might be poisoned if they feed upon animals that have eaten this rodenticide. Do not apply this product directly to water.
