

# Brandt® GH for Vegetables

## Foliar Nutrient Solution

### Guaranteed Analysis

Total Nitrogen (N) .....	≥ 56 g/L
≥ 33 g/L Nitrate nitrogen	
≥ 23 g/L Urea nitrogen	
Magnesium (Mg) .....	≥ 18 g/L
≥ 18 g/L Water soluble magnesium	
Boron (B) .....	≥ 5 g/L
≥ 5 g/L Water soluble boron	
Iron (Fe) .....	≥ 13 g/L
≥ 13 g/L Water soluble iron	
Manganese (Mn) .....	≥ 10 g/L
≥ 10 g/L Water soluble manganese	
Zinc (Zn) .....	≥ 10 g/L
≥ 10 g/L Water soluble zinc	

Derived from magnesium nitrate, ferric nitrate, manganese nitrate, zinc nitrate, urea, sodium borate.

### General Information

Although formulated specifically for vegetables, this product may be used on all field, row, fruit, tree, vine and ornamental crops for the prevention and correction of micronutrient deficiencies when used as part of a balanced fertility program.

### Rate Recommendations

**Field, Row, Vegetable, Fruit, Tree and Vine Crops:** Apply 1-2 quarts per acre per application throughout the growing season. At least 3 applications are recommended. More frequent applications at 1.5 quarts per acre may be needed to correct deficiencies once they occur. For pre-plant or sidedress applications, use 1-2 gallons per acre.

**Ornamental Crops:** Apply 1-2 quarts per 100 gallons water. Cover foliage thoroughly to point of runoff.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

**Net Contents: 10 liters** (2.6 gallons)  
**Packaged: 2 x 10 liters** (2.6 gallons)

### Mixing and Handling Instructions

Apply in a minimum of 10 gallons water per acre for ground spray equipment or 2 gallons water per acre for aerial application. BRANDT GH FOR VEGETABLES may also be applied via drip or sprinkler fertigation.

Put 1/3 to 2/3 of total required water volume in tank. Add adjvants, fertilizers and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of this product and agitate until thoroughly mixed. Fill tank with remainder of water. Caution: Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing with phosphate solutions.

Warning: BRANDT GH FOR VEGETABLES is recommended for all crops where boron may be deficient; however overapplication may result in serious injury to susceptible crops.

**WARNING:** Causes skin and serious eye irritation. May cause respiratory irritation.

**Precautionary Statements:** Wear protective gloves and eye/face protection. Avoid breathing mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area.

**First Aid:** *If in eyes:* Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. *If on skin:* Wash with plenty of water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical attention. *If inhaled:* Remove person to fresh air and keep comfortable for breathing. **Storage and Disposal:** Store in out of reach of children. Store in a well ventilated place. Keep container tightly closed. Store locked up. Dispose of contents/container in accordance with local authority requirements.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
