

Brandt™ Insure

Water Conditioner, Acidifier & Wetter/Spreader

Principal Functioning Agents:

Alkyl Aryl Polyether Phosphate, Organophosphates and Proprietary Water Conditioning Agents	80%
Constituents Ineffective as Spray Adjuvant	20%
Total	100%

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

IF SWALLOWED: Immediately call a doctor for treatment advice. Do not induce vomiting unless told to do so by the doctor. Do not give ANY liquid to the person. Do not give anything by mouth to an unconscious person. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call an ambulance then give artificial respiration, preferably mouth-to-mouth if possible. Call a doctor for further treatment advice.

Have the product container or label with you when calling a doctor or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mists or vapors. Wear long sleeved shirt, long pants, shoes plus socks, protective eyewear and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

DIRECTIONS FOR USE

BRANDT INSURE is a multi-purpose adjuvant that improves spray tank performance by conditioning hard water and acidifying alkaline water. It contains ammonium ions for improved translocation and has some wetter/spreader capabilities. It may be used on agricultural, forestry, turf and ornamental, industrial and non-cropland sites.

BRANDT INSURE enhances the performance and consistency of post emergent herbicides by reducing or eliminating the tie-up of anionic herbicides including glyphosate and amine salt herbicides with metal cations presence in hard water such as calcium (Ca), magnesium (Mg) and iron (Fe).

Brandt is a trademark of Brandt Consolidated Inc.

Brandt™ Insure

BRANDT INSURE also increases compatibility of micronutrient tank mixes such as manganese (Mn) with glyphosate and other anionic herbicides that are deactivated by metal cations. It contains ammonium ions for improved herbicide uptake and translocation for difficult to control weeds.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with this product. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT INSURE is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake well before using. Fill spray tank $\frac{1}{2}$ full of water and begin agitation. Add recommended amount of BRANDT INSURE. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume.

An application rate of 2 liters per 300 liters is typically sufficient to lower the pH of the spray solution to 4.5 - 5.5. BRANDT INSURE is buffered and will not lower the pH of the tank solution below 4.0. This product has some capabilities as a buffer and as a wetter/spreader.

Water Hardness	Rate of BRANDT INSURE per 300 liters spray solution
Soft to Medium	1-2 liters
Medium to Hard	2-3 liters
Hard to Extremely Hard	2-4 liters

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in original container away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
