

Brandt Smart Trio™

Foliar Nutrient Solution

Misstof Groep 2 / Fertilizer Group 2
Reg. nr B 4289 Act / Wet 36/1947

Total Nitrogen (N).....	40 g/kg
Sulfur (S).....	30 g/kg
Boron (B).....	2,5 g/kg
Manganese (Mn).....	30 g/kg
Zinc (Zn).....	30 g/kg

General Information

BRANDT SMART TRIO is specifically formulated for foliar delivery of manganese, zinc and boron for all crops. BRANDT SMART TRIO provides improved physical and biological compatibility of micronutrients with herbicides such as **Roundup™ PowerMAX** (L 7769), **MAMBA™ DMA 480SL** (L 8388), **MAMBA™ MAX 480SL** (L 7714), **Touchdown Forte® HiTech** (L 7305) and **Halex™ GT** (L 8415).

Rate Recommendations

Foliar Application

Ground: Apply 2,5 – 5 litre per 100 – 200 litre of water per ha and repeat as needed.

Aerial: Apply 1,25 – 2,5 litre per ha with 50 litre of water and repeat as needed.

Soil Application

Use 2,5 – 7,5 litre per 100 – 200 litre of water per ha per application. Not for use with starter fertilizer.

Brandt Smart Trio and Smart System are trademarks of Brandt Consolidated Inc. Roundup PowerMAX is a trademark of Monsanto Technology LLC. Mamba DMA 480SL and Mamba Max 480SL are trademarks of Dow AgroSciences LLC. Touchdown Forte HiTech and Halex GT are trademarks of a Syngenta Group Company.

Net Contents: 10 litre
Packaged: 2 x 10 litre

Batch no:
2013-07

Mixing and Handling Instructions

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, fertilizers, and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of BRANDT SMART TRIO and agitate until thoroughly mixed. Fill tank with remainder of desired water.

Caution: Check chemical mixture compatibility using a jar test prior to application, especially for high phosphate and alkaline (high pH) solutions.

For full strength application, handling or storage equipment MUST consist of either PVCs, polypropylenes, most plastics, or stainless steel. Never use mild steel, nylon, brass, aluminum or copper around, to store, or to handle full strength BRANDT SMART TRIO. Rinse handling equipment after use if material is susceptible to corrosion.

The use of an adjuvant is recommended. Performing trials with adjuvants may be useful in determining the best inclusion rates for optimal performance. Optimum rate of application will vary depending on soil properties.

WARNING: BRANDT SMART TRIO is recommended for all crops where boron may be deficient; however overapplication may result in serious injury to susceptible crops.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
