

Winter Success Program

November – March Nutritional Program for All Turf Grasses

The correct combination of nutrients produces outstanding greens and tees. It also helps turf withstand winter stress. BRANDT's MANNI-PLEX® foliar nutrients build stronger root systems, stronger shoots and healthier turf.

Application Timing	Products	Application Rates
Week 1	FOLI-CAL® MANNI-PLEX® MG MANNI-PLEX® GROW	3 oz / 1000 sq ft
Week 2	BRANDT CONVERGE 18-3-6 MANNI-PLEX® EAGLE BRANDT IN-CYTE	3 oz / 1000 sq ft
Week 3	FOLI-CAL® MANNI-PLEX® ROOT BUILDER BRANDT CONVERGE CRN	3 oz / 1000 sq ft
Week 4	BRANDT CONVERGE 18-3-6 MANNI-PLEX® SUPREME GREEN BRANDT PARCO-ROOT XL	3 oz / 1000 sq ft
Every 6th Spray	BRANDT SEAWEED MAX	3 oz / 1000 sq ft

* For Champion Ultra Dwarf Grass replace BRANDT CONVERGE CRN with BRANDT 30 K at 3 oz. / 1000

Guaranteed Analysis

FOLI-CAL®	5% N, 10% Ca
MANNI-PLEX® EAGLE	7-0-14 plus .25% Mg, .5% Fe, .25% Mn
MANNI-PLEX® GROW	12-0-6 plus .25% Mg, .12% Cu, 1% Fe, .25% Mn, .25% Zn
MANNI-PLEX® MG	5-0-0 plus 4% Mg
MANNI-PLEX® ROOT BUILDER	3-0-0 plus .5% Mg, .2% B, .05% Cu, .9% Mn, 4.7% Zn
BRANDT CONVERGE CRN	30-0-0 with 70% controlled release nitrogen
BRANDT IN-CYTE	3-12-0 enriched with seaweed extract and humic acids
BRANDT CONVERGE 18-3-6	18-3-6 plus .1% Fe, .05% Cu, .05% Zn
BRANDT CONVERGE CRN	30-0-0 with 70% controlled release nitrogen
BRANDT SUPREME GREEN	12-0-0 plus .5% Mg, 4% S, 5% Fe, 1% Mn
MANNI-PLEX® SEAWEED MAX	25% seaweed extract derived from Ascophyllum Nosodium, 1% humic acid
BRANDT PARCO-ROOT XL	3.5% Fe, .75% Zn, .75% Mn, 1.5% Mg, .16% B, .003% Mo, 4% S, .8% Chlorine with humic matter, chelating agents and wetting agents added

BRANDT®

Winter Success Program

Manni-Plex® Technology and BRANDT In-Cyte

About Manni-Plex® Technology

MANNI-PLEX high performance foliar nutrients are a proprietary blend of macro and micronutrients, with a nutrient carrier added. Using MANNI-PLEX is one of the fastest and most effective ways to supply nutrition to plants and turf. It helps build strong root systems and healthy, vigorous plants and turf. MANNI-PLEX can also be re-wet after it dries, which will reactivate the formulation and extend the foliar feeding period. It is ready-to-use and compatible with most fungicides, insecticides and PGR's. Ideal for foliar application and may also be used in fertigation or as a soil drench.

About BRANDT In-Cyte

Derived from ammonium polyphosphate, BRANDT IN-CYTE is a 12% liquid phosphate with humic acid, seaweed extract and wetting agents added. It stimulates root and stem responses and enhances the rooting process.
