

# Brandt Sidekick™

## Vegetable Oil Concentrate

### Principal Functioning Agents:

Cottonseed oil	93%
Alkyl phenol ethoxylate	7%
Total	100%

CA Reg. No. 48813-50013-AA

### DIRECTIONS FOR USE

BRANDT SIDEKICK is an emulsion of 93% cottonseed oil and 7% emulsifiers that may be used on agricultural, forestry, turf and ornamental, industrial, rights of way, and non-cropland sites. This product improves deposition and crop canopy penetration of pesticide spray applications. It is formulated to increase the coverage of pesticide sprays and to reduce evaporation of the spray mixture on plant surfaces after application. This product is well suited for aerial applications and ground applications using low volumes of water or where the vegetable oil concentrate acts as a carrier in the pesticide spray mixture.

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT SIDEKICK. Use according to the most restrictive label directions for each product in any tank mix.

**COMPATIBILITY:** BRANDT SIDEKICK is compatible with most pesticides and foliar nutrients. However, if the desired combination has not been previously used, a compatibility test is recommended.

**MIXING:** Shake well before using. For liquid formulations, premix the recommended amount of BRANDT SIDEKICK with the pesticide, then add enough water to provide the desired application volume. For wettable powder formulations, premix the pesticide with water, add the recommended amount of BRANDT SIDEKICK, then add enough water to provide the desired application volume. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application.

**RECOMMENDATIONS:** Specific use rates will vary with conditions of application such as water, hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. However, do not add this product at a rate which exceeds 5% of the finished spray volume, except when used as a diluent/carrier.

**Normal Applications:** Use 1-2 quarts in 5-20 gallons of water per acre, not to exceed 5% volume. For backpack or hand held sprayers, use 1 fl.oz. per gallon of finished spray solution.

**Citrus Sprays:** Use a 1% solution in 100-500 gallons of water per acre.

**Dormant Orchard Sprays:** Use a 1-2% solution in 100-500 gallons of water per acre.

**ULV Application** (Except California): Where no water is used, use 1 quart per acre.

**Controlled Droplet Applications (CDA):** With water, use 1/2 to 1 quart per minimum 5 gallons finished spray; where no water is added, use 3-5 pints per acre.

KEEP OUT OF REACH OF CHILDREN

**WARNING**

### PRECAUTIONARY STATEMENTS

#### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes serious eye irritation. Harmful if swallowed. Wear protective eyewear, long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. 93% of the mixture consists of component(s) of unknown acute oral toxicity.

#### ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Avoid release to the environment.

#### FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

**IF SWALLOWED:** Rinse mouth. Call a doctor if you feel unwell.

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in original container away from children, animals, foods, feeds, seeds and incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

**PRODUCT DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at [www.acrcycle.org](http://www.acrcycle.org). Decontaminated containers may also be disposed of in a sanitary landfill.

**WARRANTY:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
