BRANDT® Smart Fe™

Advanced Compatibility Foliar Nutrition

BRANDT SMART FE is a new high efficiency foliar iron formulation in the top-selling BRANDT SMART SYSTEM product line. It offers 4% iron with a spike of 2% sulfur. It is ideal for in-season nutrient applications on specialty crops and row crops.

Benefits of Foliar Feeding
Foliar feeding is one of the most efficient ways to supply nutrition to crops during critical growth stages. Applying nutrition to plant leaves allows the plant to immediately absorb nutrients, which promotes better plant uptake, better overall plant health and increased yield potential.

Key Benefits of BRANDT SMART FE
BRANDT SMART FE provides high quality, readily available nutrients to plants in a highly efficient and mobile form. It is also formulated for superior tank mix compatibility with fungicides, insecticides, glyphosate and select dicamba herbicides.

- Superior tank mix compatibility over a broad pH range
- Maximum nutrient mobility and efficiency, which allows for a lower application rate per acre
- Low salt index and low impurities
- Healthier plants, stress mitigation, enhanced quality and yield
- BRANDT SMART FE is approved for use with Engenia® and XtendiMax® with VaporGrip® Technology

Plant Nutrient Functions
The nutrient combination in BRANDT SMART FE was carefully selected and developed for specialty crops and row crops. The agronomic benefits of these nutrients include:

- **Iron**: assists in chlorophyll production, respiration and energy transfer.
- **Sulfur**: aids in protein and enzyme synthesis.

Application Recommendations
Field, Row, Vegetable and Vine Crops: Apply 1 quart per acre per application throughout the growing season. More frequent applications at 1 pint per acre may be needed to correct deficiencies once they occur.
