

**BRANDT® Magnify**

# Non Ionic Surfactant and Water Conditioning Agent

When added to a spray-tank mix, BRANDT MAGNIFY enhances biological activity and increases leaf-surface penetration of aquatic and other herbicides whose labels specify the addition of a non-ionic surfactant and/or water conditioning agent. These may include herbicides containing glyphosate, diquat, imazapyr, 2,4-D, and others, when used either alone or in herbicide tank mixes. BRANDT MAGNIFY may be used on agricultural, aquatic, turf and ornamental, industrial, and non-cropland sites.

## Benefits of BRANDT Magnify

- Contains a bio-degradable non-ionic surfactant
- Reduces spray droplet surface tension to less than 30 dynes/cm
- Stable over a wide pH range from 3.0 - 13.0
- Hydrotopic and coupling characteristics reduce viscosity and cold temperature solubility issues
- One gallon of BRANDT MAGNIFY contains 2 lbs of ammonium sulfate
- Alkyl Phenol Ethoxylate (APE) free

The mark BRANDT is a registered trademark of BRANDT Consolidated, Inc. CPDA logo is a registered trademark of Council of Producers & Distributors of Agrotechnology.

## Principle Functioning Agents

Alkyl polyglycoside, Ammonium sulfate and Ammonium nitrate .....	51.02%
Constituents ineffective as spray adjuvant .....	48.98%
Total: .....	100.00%

CA Reg. No. 48813-50014 WA Reg. No. 48813-15003

## Application and Use

Rate Recommendations	Application Rate
For air and ground applications	1-4 qt per 100 gallon spray solution

For improved efficacy, use at least 1 pt per acre when finished spraying volume is less than 20 gallons per acre. For backpack or handheld sprayers, use 0.3 to 1.25 fl oz per gallon of spray solution.

Always read and follow all label directions.
