

BRANDT® Smart Mg

Advanced Compatibility Foliar Nutrition

BRANDT SMART MG is high efficiency foliar 10-0-0 with a spike of magnesium and sulfur. It is designed for advanced tank mix compatibility and ideal for in-season nutrient applications on specialty crops and row crops.

Benefits of Foliar Feeding

Foliar feeding is one of the most efficient ways to supply nutrition to crops during critical growth stages. Applying nutrition to plant leaves allows the plant to immediately absorb nutrients, which promotes better plant uptake, better overall plant health and increased yield potential.

Key Benefits of BRANDT SMART MG

BRANDT SMART MG provides high quality, readily available nutrients to plants in a highly efficient and mobile form. **It is also formulated for superior tank mix compatibility with fungicides, insecticides, glyphosate.**

- Maximum nutrient mobility and efficiency, which allows for a lower application rate per acre
- Low salt index and low impurities
- Healthier plants, stress mitigation, enhanced quality and yield

Plant Nutrient Functions

The nutrient combination in BRANDT SMART MG was carefully selected and developed for specialty crops and row crops. The agronomic benefits of these nutrients include:

Magnesium: essential to chlorophyll production and the formation of sugar oil and fat. It also helps activate plant enzymes to promote new growth.

Sulfur: aids in protein and enzyme synthesis.

Guaranteed Analysis

10-0-0

Nitrogen (N)	10.0%
10.0% Urea nitrogen	
Magnesium (Mg)	4.0%
Sulfur (S)	4.0%

Derived from urea and magnesium sulfate

Application Recommendations

FOLIAR APPLICATION

Ground: Apply 1-2 quarts in a minimum of 10 gallons of water per acre and repeat as needed.

Aerial: Apply 1-2 pints in a minimum of 5 gallons of water per acre and repeat as needed

SOIL APPLICATION

Use 1-3 quarts in a minimum of 10 gallons of water per acre. Not for use with starter fertilizer.
