

# Brandt® enTREE® MicroPak

## Tree Injection Fertilizer

0.5-0-0

### Guaranteed Analysis

Total Nitrogen (N) .....	0.50%
0.23% Urea nitrogen	
0.27% Nitrate nitrogen	
Boron (B) .....	0.025%
Iron (Fe) .....	0.10%
Manganese (Mn) .....	0.25%
Zinc (Zn) .....	0.20%

Derived from urea, iron nitrate, manganese nitrate, zinc nitrate and sodium borate.  
F76

### General Information

BRANDT enTREE products are designed for direct injection of nutrients to fruit, tree and vine crops for the prevention and correction of nutrient deficiencies when used as part of a balanced fertility program.

Using low pressure tree injection technology, BRANDT enTREE treats trees from the inside, gently dispersing nutrient formulations into the tree's vascular system. The injection units are ready to use: after drilling the hole in the tree trunk and inserting the connector, the unit can be attached in a variety of angles (upright, upside down, sideways, etc.).

To ensure maximum efficacy and absorption, it is important for BRANDT enTREE MICROPAK to be applied in the proper location on the tree. For single trunk trees, the application should be at least 20" (60 cm) below the lowest branch. For trees with split trunks, the application should be applied to each trunk.

### Rate Recommendations

Measure the diameter of the tree at breast height by using diameter tape, or by measuring the circumference and dividing by three (3). Take the diameter of the tree and divide by five (5). This is the number of injection units that will be needed to treat the tree. If the tree has multiple trunks at breast height, measure each trunk's diameter and add together to get cumulative diameter. DO NOT inject trees that are less than five inches in diameter.

### Net Contents:

50 x 200 mL injector units  
Density: 8.55 lb/gal @ 68°F  
Net Weight: 22.58 lb (10.42 kg)

28169BRN654  
2018-08

In the event the tree has multiple trunks that separate less than three (3) feet (from the ground (e.g., avocado, citrus, peach, etc.)), each individual trunk must be treated separately to ensure equally homogenous distribution of solution to all parts of the tree. In this instance, each individual trunk must be measured in the same way as if the trunk were standing individually. DO NOT INJECT trees that are less than five inches in diameter or 15 inches in circumference. Do not inject trees that are heat or moisture stressed, or in a state of dormancy.

Apply once per year.

### Handling Instructions

Refer to the BRANDT enTREE Application Instruction sheet enclosed in this box.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>  
Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the label.

WARNING: Suspected of damaging fertility or the unborn child.

**Precautionary Statements:** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/clothing and eye/face protection. **First Aid:** If exposed of concerned, get medical attention. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store locked up. Dispose of contents/container in accordance with local regulations.

**WARNING:** Cancer and Reproductive Harm-[www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

LIMITED WARRANTY: Brandt Consolidated, Inc. ("BCI") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. BCI and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, BCI and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
