

Brandt® Uptake Starter

Modified Humic Acid

4-0-1

Guaranteed Analysis

Total Nitrogen (N).....	4.0%
4.0% Ammoniacal nitrogen	
Soluble Potash (K ₂ O).....	1.0%
Sulfur (S).....	4.0%
4.0% Combined sulfur	

Derived from ammonium sulfate and potassium hydroxide. F76

ALSO CONTAINS NONPLANT FOOD INGREDIENTS:

10% Humic acid derived from leonardite ore.

General Information

BRANDT UPTAKE STARTER is a highly charged, modified humic acid material formulated for NPK fertilizer solutions. This highly charged humic acid offers superior compatibility with phosphate solutions and does not precipitate out of these solutions like traditional humate liquids. This product is compatible with conventional NPK starters including, but not limited to: 11-37-0, 10-34-0, 3-18-18, 32-0-0, and 28-0-0.

Directions for Use

Add 1-4 pints of BRANDT UPTAKE STARTER per 5-10 gallons of liquid NPK fertilizer solution and mix thoroughly. Apply this mixture in accordance with standard NPK fertilizer practice.

Prior to adding BRANDT UPTAKE STARTER to NPK fertilizer solutions, test compatibility by jar testing at desired ratios prior to mixing. Mixtures of this product and NPK fertilizer solutions should be used within the same growing season.

Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the container or label.

Precautionary Statements: Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wash hands after handling. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.

⚠ **WARNING:** Cancer and Reproductive Harm-
