

# BRANDT® Umbrella Spreader/Sticker

BRANDT UMBRELLA helps the spray deposit to adhere or stick to the target when used in a foliar spray application and improves performance of soil applied pre-emergent herbicides. BRANDT UMBRELLA may be used on agricultural, forestry, turf and ornamental, industrial, structural, and non-cropland sites\*

## Key Benefits of BRANDT Umbrella

- Delays foliar applied pesticide UV degradation and enhances weathering by forming a rain fast film
- Improves spray droplet deposition and lowers volatilization of foliar spray applications
- Improves root zone retention of soil applied herbicides where extended residual is desired
- Diminishes decrease performance due to leaching, evaporation, or movement off-site
- Tank mix compatible with all sprayable pre-emergent herbicide formulations

\*Not for aquatic use in Washington

The mark BRANDT is a registered trademark of BRANDT Consolidated, Inc.

## Principal Functioning Agents

|   |        |
|---|--------|
| Pinene (diterpene) polymers, Tall oil fatty acids and Polyethylene glycol trimethylnonyl ether. . . . . | 99.7%  |
| Contituents ineffective as spray adjuvants . . . . .  | 0.3%   |
| Total: . . . . .  | 100.0% |

CA Reg. No. 48813-50017-AA

## Application Rates

See label for a complete list of application rates.

| Rate Recommendations                 | Application Rate<br>(per 1,000 sq ft)           |
|--------------------------------------|---|
| For use as a spreader/sticker        |   |
| Ground or chemigation                | 0.09-0.37 fl oz                                 |
| Backpack/hand held sprayers          | 0.5 fl oz per gallon of finished spray solution |
| For use with soil applied herbicides |   |
| Ground                               | 0.37-0.75 fl oz                                 |

Always read and follow all label instructions before application.
