GRIGG. GREENPIG ULTRA

RATE RECOMMENDATIONS FOR PROFESSIONAL USE ONLY

For best results, apply GRIGG GREENPIG ULTRA in the early morning or late afternoon. Allow a minimum of 1 hour dry time before re-entry or irrigation. Best to apply after mowing.

Maintenance Rate: Apply with 50-100 gallons of water [190-380 L of water].

<u>Golf Course Putting Greens:</u> 12-24 fl oz per acre [660 mL-1 .5L per hectare].

Golf Course Fairways: 18-32 fl oz per acre [1.25-2.25 L per hectare].

Sports Fields: 24-34 fl oz per acre [1.5-2.5 per hectare].

Optimum rate of application will vary depending on treatment interval, turfgrass species, mowing height, weather conditions and time of year. Generally, higher mowing heights and warm season turfgrasses will require higher rates to achieve the best results. **Approved for use on dormant and semi-dormant turfgrass.**

MIXING AND HANDLING INSTRUCTIONS

Maintain constant agitation during batching and spray application. Spot test for acceptable color depth prior to full scale spraying. Adjust rates as needed. Avoid overspray where colorant is not desired or staining may occur. Retain mix rate records as a reference for future spray applications. To insure optimal spray equipment performance, thoroughly clean spray equipment after use with a quality tank cleaner.

Pigment Additive

GRIGG GREENPIG ULTRA is engineered with premium pigments to enhance and extend aesthetic turf appearances while delivering performance in all seasons. This product is safe for all varieties of turfgrass with less chance for blue overtones on semidormant turf and provides color performance for up to one month. GRIGG GREENPIG ULTRA will increase the reflectance of potential harmful near infrared (NIR) light, thus may improve overall turfgrass quality and vigor without additional nutrient inputs. This product is compatible with fertilizers, plant growth regulators and crop protectants, and is pump seal friendly.

Research Driven, Proven Results™ WARNING: Suspected of causing cancer if inhaled. This product contains carbon black. In its original dry powder form, carbon black is known to cause respiratory issues and cancer in animals. As an aqueous dispersion, it is not expected to be an inhalation hazard under normal use. May cause damage to organs through prolonged or repeated exposure. The customer is responsible for using proper personal protective equipment when using this product and understanding their requirements under OSHA based on their use of this product.

Precautionary Statements: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe fumes/ spray/mist. Wear eye/face protection and protective gloves/clothing. First Aid: If exposed or concerned, get medical attention. Get medical attention if you feel unwell.
